FROM THE PRESS OF THE SUN BOOK AND JOB PRINTING OFFICE.

THE SUN ALMANAC

MARYLAND'S BLUE BOOK

THE thirty-seventh number of this standard book of reference, now presented to the readers of THE SUN, is of exceptional interest, covering a year unusually rich in events of a striking character and presenting an increased number of topics.

The widening scope is indicated by the 256 pages of 1912, against the 176 pages of the Almanac of 1902 and the 32 pages of the Almanac of 1876. Matters of public interest in Maryland and the adjacent States receive first attention, but the Almanac chronicles also the important events of the entire globe. The South is treated as of special interest. The political, financial, industrial, economic and social statistics of Maryland and its chief city are presented with such fidelity and completeness that in this field it is without a rival. THE SUN'S readers everywhere refer with confidence to its abundant data in regard to matters of government, public officials, politics, elections, industry, sport, science and business.

Public men, merchants, manufacturers, bankers, seafarers, professional men, farmers and the home circle find THE SUN ALMANAC an invaluable vade mecum, containing, as it does, in brief space a multitude of useful facts which cannot be had in any other publication.

The advertisements at the end add to the Almanac's value, guiding its readers serviceably to the satisfaction of everyday wants.

ASTRONOMICAL CALCULATIONS FOR THE YEAR 1912.

Comprising the latter part of the 136th and the beginning of the 137th year of the Independence of the United States of America.

The Astronomical Calculations in this Almanac are made for Baltimore, Md., or, more exactly, the position of Johns Hopkins University, in Long. 5 h. 6 m. 26 s. west of Greenwich and Lat. 39° 17' 48" N., and are given in Eastern Standard time (which corresponds to Long. 5 h. west of Greenwich). To express the data given in Baltimore Mean time, subtract 6 m. 26 s. from the values given.

The year 1912 corresponds to—

The year 6625 of the Julian Period.

The year 7420-7421 of the Byzantine Era, the year 7421 commencing on Sept. 1st.

The year 5672-5673 of the Jewish Era, the year 5673 commencing on September 12th or, more exactly, at sunset of September 11th.

The year 2665 since the foundation of Rome, according to Varro.

The year 2572 of the Japanese Era, and to the 45th year of the period entitled "Meiji."

The year 1330 of the Mohammedan Era, or the era of the Hegira, begins on the 11th day of December, 1912.

The first day of January of the year 1912 is the 2,419,403rd day since the commencement of the Julian Period.

ECLIPSES.

In the year 1912 there will be four eclipses, two of the Sun and two of the Moon.

1. A Partial Eclipse of the Moon, 1912, April 1, invisible at Baltimore.
2. A Central Eclipse of the Sun, 1912, April 16-17, visible at Baltimore as a partial, the Sun rising eclipsed.
3. A Partial Eclipse of the Moon, 1912, September 25-26, the Moon setting at Baltimore as the Eclipse begins; the beginning visible generally in North America except the extreme eastern portion, the Pacific Ocean, Eastern Asia and Australia.
4. A Total Eclipse of the Sun, 1912, October 9-10, invisible at Baltimore. The path of the umbra begins in the Pacific Ocean north of the Esmeraldo Islands, into South America at Quito, Ecuador, crosses South America in a southeast direction and also the Indian Ocean, ending near the 50th degree of latitude south of Cape Colony, Africa.

MORNING AND EVENING STARS.

Venus is morning star until July 5, then evening star for the remainder of the year.

Mars is evening star until November 4, then morning star for the balance of the year.

Jupiter is morning star until June 1, then evening star until December 18, and then morning star again for the rest of the year.

Saturn is evening star until May 14, then morning star until November 23, and then evening star for the residue of the year.

THE ZODIAC.

The apparent path of the sun in the heavens is along an ecliptic, which is inclined 23° 27' to the celestial equator. A belt 16° wide, 8° on each side of the ecliptic, within which are comprised the path of the moon and all of the planets known to the ancients, is known as the zodiac. This belt is divided into the twelve signs of the zodiac, each 30° in length. The first of these signs begins at the point when the sun's path crosses the equator

(when moving north in the spring) and is known as the sign of Aries, and the point of crossing is known as the vernal or spring equinox. The point when the sun's path crosses the equator when returning south in the fall is known as the autumnal equinox, and is the beginning of the sign Libra.

The zodiacal signs and the times when the sun enters each are as follows:

♈ Aries, the Ram.	Mar. 21, 2 P.M.	♏ Scorpio, the Scorpion.	Oct. 23, 10 P.M.
♉ Taurus, the Bull.	April 20, 2 P.M.	♐ Sagittarius, the Archer.	Nov. 22, 7 P.M.

To find the high water at Norfolk Navy Yard, for instance, July 4, 1912, find the times of water at Baltimore, which are 9 h 42 m. A. M., and 10 h. 27 m. P. M.; from these subtract 9 h. 29 m., as found in the above table, and we have 12 h. 13 m. A. M. and 12 h. 58 m. P. M., as the times of high water at Norfolk Navy Yard on that day.

JONES FALLS BOULEVARD COMMISSION.

The \$1,000,000 voted for covering Jones Falls and making a street over it will be spent by an unpaid commission consisting of William B. Hurst, Mr. George S. Jackson, Sewell S. Watts, Francis K. Carey, Josias Pennington, Calvin W. Hendrick, Norman James, William H. Fehsenfeld. Sewerage Engineer Hendrick says the work which will have to be done by the Sewerage Commission before work on the surface can be commenced will take about two years.

SATURDAY HALF-HOLIDAY.

Saturday half-holiday laws are in force in the following places:

Annapolis, Act of 1894, Ch. 167.	Montgomery county, Act of 1898, Ch. 366.
Baltimore city, Act of 1898, Ch. 198.	Cecil county, Act of 1900, Ch. 87.
Baltimore county, Act of 1898, Ch. 152.	Westminster, Act of 1902, Ch. 443.
Harford county, Act of 1898, Ch. 154.	Ellicott City, Act of 1902, Ch. 151.

Bills, drafts, checks, notes, etc., maturing on any half-holiday Saturday shall be payable on the succeeding secular or business day. Days of grace were abolished in Maryland by Act of 1896, Ch. 106, except under stipulated agreement.

KNOTS AND MILES.

The statute mile is 5,280 feet.

BALTIMORE'S RESTRICTED AREA.

Baltimore has a greater population to the square mile than any of the cities of its class. The last census shows:

	Population.	Square Miles.	Pop. to Square Miles.		Population.	Square Miles.	Pop. to Square Miles.
New York.....	4,766,881	326 $\frac{2}{3}$	14,592	Boston.....	670,585	42 $\frac{3}{4}$	15,686
Chicago.....	2,185,283	190 $\frac{1}{2}$	11,471	Cleveland.....	560,663	45	12,459
Philadelphia.....	1,549,008	129 $\frac{1}{2}$	11,960	Baltimore.....	558,485	31 $\frac{1}{2}$	17,729
St. Louis.....	687,029	61 $\frac{1}{2}$	11,202	Pittsburg.....	533,905	41	13,022

The population just outside Baltimore's artificial limits is estimated at 100,000 or over. Were this number, or the number shown by the police census to have been omitted in the Federal census of 1910, added, Baltimore would rank above Cleveland. The Directory of 1911 gives Baltimore and suburbs 692,931 names.

PLANTING TREES—DISTANCES, ETC.

The figures given are feet apart each way: Apples, 25 to 35; Pears, standard, 10 to 20; Pears, dwarf, 10; Cherries, standard, 18 to 20; Plums, Dukes and Morellos, 16 to 18; Cherries, standard, 16 to 20; Peaches, 16 to 18; Quinces, 10 to 12; Currants, 2 to 4; Gooseberries, 2 to 4; Raspberries, 3 to 5; Blackberries, 6 to 7; Grapes, 8 to 12. To estimate the number of plants required for an acre, multiply the distance between the rows by the distance between the plants and divide this number into 43,560, the number of square feet in an acre.

MIDSHIPMEN OF THE UNITED STATES NAVY.

Appointments to the Naval Academy at Annapolis, Maryland.

The minimum age for admission is 16 years; maximum 20. Two midshipmen are allowed for each Senator, Representative and Delegate in Congress, two for the District of Columbia and five each year from the United States at large. The appointments from the District of Columbia and five each year at large are made by the President. One midshipman is appointed by the President from Porto Rico on the recommendation of the Governor of Porto Rico. Each Senator, Representative and Delegate in Congress may appoint one midshipman during each Congress.

The course for midshipmen is six years—four years at the Academy, and two years at sea, at the expiration of which time the examination for final graduation takes place.

Graduates are appointed to fill vacancies in the lower grades of the line of the Navy, and of the Marine Corps, in the order of merit.

THE EXAMINATIONS.

1. The general mental examination held on the third Tuesday in April, under the supervision of the Civil Service Commission, at points named.

2. A second mental examination at Washington, D. C., only on the second Tuesday in May, under the supervision of the Civil Service Commission.

3. A third examination at Annapolis, Md.; only on the third Tuesday in June, under the supervision of the Superintendent of the Naval Academy. Candidates are notified when to appear at Annapolis for physical examination.

Alternates also are nominated and these may report for examination at the same time as the principals. There may be a special examination after the third Thursday of June.

Candidates failing to pass the entrance examination are allowed another examination for admission to the same class if recommended for re-examination by the Board of Examiners.

The Civil Service Commission examines only candidates whose names have been furnished by the Navy Department. All correspondence relative to the nomination and examination of candidates should be addressed to the Bureau of Navigation, Navy Department, Washington, D. C.

Nomination for examination in April should be forwarded to the Bureau ten days prior to the date of examination, as that is the latest date at which arrangements can be made for the examination. Candidates must enter the Academy immediately after examination. Candidates are examined mentally in reading, writing, punctuation, spelling, arithmetic, geography, English grammar, United States history, World's history, algebra through quadratic equations, and plane geometry (five books of Chauvenet's Geometry, or an equivalent.)

On entering the Academy the appointee signs an agreement to serve in the Navy eight years, including his time of probation at the Naval Academy. A midshipman's pay is \$600 a year, commencing from the date of admission. The expenses for equipment at entrance are \$226.35. A preliminary deposit of \$30 for clothing is required.

DEGREES OF LONGITUDE AND LATITUDE.

It is only on the equator that a degree of longitude is 69½ statute or 60 nautical or geographic miles, the latter in the nautical language also called knots. With increasing latitudes this length decreases. So in our own latitude, about 40°, one degree of longitude

measures only 53 miles. Near the poles these distances become very small. Degrees of latitude also vary, increasing with increasing latitudes. While a degree of latitude near the equator measures about 68.7 miles, near the poles it measures nearly 69.4 miles.

THERMOMETER SCALES.

Taking Fahrenheit's scale the boiling point of water is 212°, whereas in the Centigrade it is 100°.

The freezing point of water is 32° Fahr. and 0° Centigrade.

Consequently 180° plus 32° Fahr. is equal to 100 Centigrade.

So, to convert Fahrenheit to Centigrade, subtract 32, multiply by 5 and divide by 9.

To convert Centigrade to Fahrenheit multiply by 9, divide by 5 and add 32.

This does away with the recurrence of decimals.

Similarly, according to Reaumur's scale, the boiling point of water is 80° and the freezing point 0°.

To convert Fahrenheit to Reaumur subtract 32, multiply by 4 and divide by 9.

To convert Reaumur to Fahrenheit multiply by 9, divide by 4 and add 32.

LOCUSTS.

The 17-year locusts will reappear at year. There was a notable brood at Baltimore in 1919. This is the great Buena Vista in 1910. Locusts appear as large broods in different years in brood. Some locusts appear every different parts of the country.

LEGAL AND OTHER HOLIDAYS IN MARYLAND.

1. New Year's day, January 1.
2. Washington's Birthday, February 22.
3. Decoration day, May 30.
4. Independence day, July 4.
5. Defenders' day, September 12.
6. Christmas day, December 25.
7. Good Friday.
8. General election day.
9. Congressional election day.
10. Sundays.

All special days that may be appointed or recommended by the Governor of this State or the President of the United States as days of thanksgiving, fasting and prayer or other religious observances, or for the general cessation of business, become legal holidays. Thus the following may become holidays in this State:

Labor Day—the first Monday in September—It is a national holiday by act of Congress approved June 28, 1894.

Columbus Day—October 12.

Arbor and Bird Day—the Governor of Maryland is authorized to designate by proclamation one day in April every year for tree planting, to be known as "Arbor Day."

Maryland Day—March 25, the anniversary of the landing in St. Mary's county, of the first settlers in Maryland, in the year 1634, is not a legal holiday, but is commemorated by special exercises in the public schools of the State.

Repudiation Day—November 23 is a bank half-holiday in Frederick county, to commemorate the repudiation of the stamp act in 1765.

MARYLAND'S VOTE FOR ELECTORS IN 1908.

The official canvass gave the highest Taft elector 605 more votes than the highest Bryan elector and declared two Republican and six Democratic electors elected. Mr. J. H. Robinson, Republican, was elected, receiving 116,513 votes, while Mr. Enos Ray, Jr., the highest Democratic elector, received 115,908 votes. But three other names of electors of the two great parties are here given. The highest Prohibition vote for an elector was 3,302; Socialist, 2,323; Independent, 485. The electoral vote was:

FISHERIES AGREEMENT.

In January, 1911, complete agreement was reached by negotiators in respect to fishing interests and regulations in which Canada, Newfoundland and the United States are concerned, making 'unnecessary any re-

course to the mixed commission of The Hague tribunal.

The agreement includes the modification of certain fishing regulations 'as well as the continuance of others hitherto in effect.

THE JUDICIARY SYSTEM.

The judges of the courts of Maryland, except the Orphans' Court, are elected for 15 years. They are required to be not less than 30 years of age at the time of election, and are re-eligible until the age of 70 years, but not thereafter, though the Legislature, by joint resolution, may enable any judge already in office to fill out an unexpired term beyond the limit. The counties are grouped into seven circuits, and the City of Baltimore is designated as the eighth circuit. A chief judge and two associate judges are provided for each circuit in the counties. The chief judges of the county circuits and a judge specially elected in Baltimore City constitute the Court of Appeals. The Governor, by and with the advice and consent of the Senate, designates the mem-

ber of the Court of Appeals who shall be the chief or presiding judge of that tribunal. A court is required to be held in each county of the State, to be styled the Circuit Court for the county in which it may be held. No two of the associate judges shall reside in the same county. Baltimore City, the eighth Judicial Circuit, is provided with a Supreme Bench—a chief and nine associate judges, in addition to one judge of the Court of Appeals. The total number of judges is 32.

The salaries of judges are as follows: Court of Appeals, \$5,800; Associate of the Circuit Courts, \$3,600; Supreme Bench, Baltimore City, \$5,000, of which \$4,500 is paid by the State and \$500 by the City of Baltimore.

WEST VIRGINIA'S DEBT.

March 6, 1911, the Supreme Court of the United States decided that West Virginia owes Virginia \$7,182,507 as her part of Virginia's ante bellum debt. The ratio of 235 to 765 was applied to a debt of \$33,000,000. Virginia had

persuaded its creditors to accept \$22,000,000 for her share of \$25,000,000, so that \$30,000,000 was to be apportioned. Sundry details of interest, etc., were left for negotiation between the States.

RUNNING RECORDS BROKEN.

On February 3, at the Fifth Regiment Armory, Alfred Shrubb, England, broke the world's record for 10 and 15 miles, indoor running, by doing his first 10 miles in 52 minutes 55 seconds, and 15 miles in 1 hour 19 minutes and 1 second. The record for 10 miles was 53 minutes 15 seconds; for 15 miles, 1.21 minutes 40 seconds. He did his first mile in 4.40. Henry St. Yves, France; John Hayes, N. Y., and George Towson, Baltimore, were competitors.

*Includes 953,243 persons in Porto Rico (1899 census).

†Decrease.

‡Indian Territory ranked 39 in population in 1900, but for comparison the population is included in the Oklahoma figures.

§According to the census of Porto Rico, taken in 1899, under the direction of the War Department.

The first figure of population above stated, 93,402,151, includes Alaska, Hawaii, Porto Rico, and Military and Naval persons abroad, but not other possessions of United States. Taking the population of Philippine Islands by census of 1903, 7,635,426, and adding estimates for the islands of Guam and Samoa and Canal Zone makes total population United States and possessions about 101,100,000.

POSTAL RATES AND REGULATIONS.

Domestic Rates.		Postage.	Limit of
I. Letters, sealed packages, and all matter wholly or partly in writing, whether sealed or unsealed (except manuscript copy accompanying proof sheets, or corrected proof sheets and writing specially authorized to be placed upon matter of other classes).	2	cents each ounce or fraction thereof.	4 pounds.
Postal cards and post cards.		1 cent each.	
II. All newspapers and other periodicals bearing the statement "Entered at the Postoffice as Second Class Matter," when mailed by the public.	1	cent for each four ounces or fraction thereof.	No limit.
III. Books, circulars, and other matter wholly in print on paper (except Second Class Matter), proof sheets, corrected proof sheets, and manuscript copy accompanying the same, seeds, scions, roots, bulbs and plants.	1	cent for each two ounces or fraction thereof.	4 pounds except single books.
IV. Merchandise and matter not included in any of the above classes.	1	cent for each ounce or fraction thereof.	4 pounds except single books.

Regulations.

Class 1. Includes letters, postal cards, sealed packages, all matter wholly or partly in writing, except permissible additions to third and fourth-class matter, whether manuscript or produced by typewriter or copying press, books with written entries, manuscript for publication not accompanied by proof sheets, and all personal correspondence, whether in writing or in print.

Class 2. Nearly every newspaper and magazine published in the United States belongs to the second class and foreign publications which, if issued here, would be admitted to that class, may be mailed at the rate given above. Second-class matter must be so enveloped that it can be readily examined without destroying the wrappers. When mailed by publishers or news agents, the rate is 1 cent for each pound or fraction thereof.

Class 3. Single books may be sent at the third-class rate, even though they may exceed the 4-pound limit of weight.

The sender may write or print on a label, tag, envelope or wrapper of third-class matter, his own name, occupation and residence or business address, preceded by the word "from."

Class 4. This embraces single books (not printed matter) which weigh more than 4 pounds. There are specific regulations for packing merchandise and samples of goods sent as fourth-class matter. Proprietary articles, such as powders, pills, fancy soaps, may be sent in original packages, sealed. Seeds and other articles requiring to be specially protected may be put in sealed envelopes if the envelopes are transparent enough to permit the nature of the contents to be ascertained. Admissible liquids, oils, pastes, salves, ointments, fresh fruits and vegetables liable to decomposition, etc., may be sent under specified regulations.

Prohibited Matter.

The following articles are unmailable under any circumstances: Liquids, ardent, vinous, spirituous or malt, cocaine or its derivatives, or those liable to explosion or spontaneous combustion; inflammable oils, poisons, explosives; animals, alive or dead (stuffed natural specimens excepted); explosive or poisonous powders, matches, insects (except queen bees and their attendant bees and dried insects when safely secured), substances exhaling an offensive odor; all articles not properly packed which are liable to destroy, deface or

damage other mail matter or to harm the person of anyone in the postal service; obscene and indecent books, prints, writings or papers; all letters upon envelopes of which, or postal cards upon which, indecent, scurrilous or defamatory delineations or language are written or printed; all matter concerning lotteries, so-called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised or intended to defraud the public, or for the purpose of obtaining money under false pretenses.

POSTAL RATES AND REGULATIONS—Continued.

Special Delivery.

The delivery of a letter, or other mailable matter, immediately after its arrival at the postoffice to which it is addressed, can be secured by placing on it a "special delivery" stamp. When this stamp (cost, 10 cents) is placed on mailable matter, in addition to the postage ordinarily required, the postal authorities undertake to dispatch it for delivery, by special messenger, within a few minutes after its arrival. The period within which the Postal Regulations require special delivery to be made is between 7 A. M. and 11 P. M. If the person to whom special delivery

mail is addressed cannot be found by the special messenger, such mail loses its special character and is delivered by regular carrier as ordinary mail, on next delivery. If it is difficult to obtain a special delivery stamp, special delivery can be secured by using 10 cents worth of ordinary stamps (in addition to the postage ordinarily required), provided the words "Special Delivery" in large letters are written near the extra stamps. Special delivery may be made within the carrier-limits of free delivery postoffices and within one mile of other postoffices.

Foreign Postal Rates.

The rates on letters mailed in the United States to Foreign Countries are as follows: To Great Britain and Ireland, Germany (if carried direct), Newfoundland, Republic of Panama, Mexico, Canada, Cuba and Shanghai, China, the same as domestic rates, *i. e.*, 2 cents the ounce or fraction thereof. To all other Foreign Countries, 5 cents the first ounce and 3 cents for each additional ounce or fraction thereof. Postal Cards: Single, 2 cents; double, 4 cents each. Commercial Papers: 1 cent for each 2 ounces or fraction, but not less than 5 cents on each packet. Printed Matter: 1 cent for each 2 ounces or fraction. Samples of Merchandise: 1 cent for each 2 ounces or fraction. Minimum charge, 2 cents. Maximum weight, 12 ounces. Postage must be fully prepaid

on matters, to Canada, Mexico and Shanghai. Postage on matter to other foreign countries should be fully prepaid, as double the deficiency will be charged on delivery. Sealed matter, other than letters in their usual and ordinary form, are excluded from the mails to Canada, Mexico, Cuba, Panama and Shanghai; to all other countries they may be mailed at letter rate of postage. Canada alone admits second-class matter without limit to weight. Postage to Canada and Mexico, same rate and conditions of prepayment as for domestic matter. Merchandise at the rate of 12 cents the pound, or fraction thereof, can be mailed by Parcels Post at the main office between the hours of 9 A. M. and 5 P. M., daily, except Sunday.

Limit of Weight and Value.

The limit of weight is 11 lbs. for all countries except France, for which country the limit is 4 lbs., 6 oz. For Barbados, Dutch Guiana, France, Great Britain and Ireland, the Netherlands and Uruguay there is no registration.

Limit of value to Australia, Austria-Hungary, Belgium, Denmark, France, Hong-Kong, Italy, Japan, Netherlands, Norway and Sweden, \$80; to Ecuador, \$50; no limit of values to other countries. No registration.

Registered Matter and Parcels Post.**REGISTERED MATTER.**

The fee for registering mail matter is 10 cents, in addition to the regular postage. These charges must be paid in advance. The maximum amount of indemnity which may be paid for loss of domestic registered mail matter of

the first class is \$50 and for third and fourth classes, \$25.

Unsealed packages of mailable merchandise may be registered and sent by parcels post to any of the countries named in the list under caption "Foreign Postal Rates," except as noted therein.

AVIATION RECORDS.

On April 12, 1911, Pierre Prier flew from Hendon, near London, to Issy, near Paris, a distance of 290 miles, in 3 hours and 8 minutes without a stop, using a monoplane. A new record.

On March 7, 1911, M. Renaux, with one passenger, flew in a Farman biplane to the summit of Puy de Dome, a distance of 217 miles in 5 hours, 8 minutes, making one stop of

17 minutes at Nevers, winning \$20,000.

On March 23, 1911, Louis Breguet at Douai, France, carried on his monoplane at an average height of 62 feet, eleven passengers (weight of the 12 aboard, 1,315 lbs.) over a distance of 2 miles, breaking M. LeMartin's record of 7 persons carried 5 minutes. Breguet's machine and company weighed 2,602 lbs.

THE CANADIAN RECIPROCITY TREATY.

Congress met in extra session April 4 to consider the Canadian reciprocity treaty and passed it July 22. It was to be subject to the action of the Canadian Parliament. The treaty reciprocally frees from duty various articles of food and reduces duties on other articles. The United States makes free Canadian articles worth \$38,811,000, or 76.4 per cent., and reduces

duties on \$7,531,000 worth, or 14.4 per cent., keeping \$4,771,000 worth dutiable at full rates. Canada makes free \$21,958,000 worth of our goods, or 16.5 per cent. and reduces duties on \$25,870,000, or 19.5 per cent., keeping dutiable \$85,198,000 worth, or 64 per cent. Canada's entire imports are \$376,000,000. On September 21 a Canadian Parliament unfavorable to reciprocity was elected.

THE POWER OF THE LORDS CURTAILED.

The "Veto Bill" by which the Liberals of the House of Commons proposed to restrict the power of the House of Lords, particularly in matters of finance, was passed by the

Commons and Lords in 1911, the Lords assenting to avoid the creation of ad-hoc peers. The Conservatives announce the purpose of repealing the Act when they regain power. The bill to reform the Lords is deferred.

BALTIMORE'S PAVING PROBLEM.

In 1911, City Engineer Fendall's report showed \$653,581.63 spent on paving and repairing in old city limits and \$167,033.64 in the Annex.

There are 6,166,044 square yards of

streets unpaved, or paved with cobble stones which are to be displaced. The cost of necessary repaving is estimated at \$12,332,088. For this a loan of \$5,000,000 has been authorized. The area paved and to be paved is:

GENERAL F. C. LATROBE.

On January 13, died Ferdinand Claborn Latrobe, seven times Mayor of Baltimore. Born October 14, 1833, in Baltimore, he graduated in 1850 from St. James' College, near Hagerstown; traveled abroad eight months in 1854; was admitted to the bar in 1859, and married Miss Louisa Swann in 1861. After service in the Confederate Army in 1866 he began his political career by gaining his election to the Legislature. In 1870 he was Speaker of the House of Delegates. In 1875 he was first elected Mayor. In 1876 he filled out Mayor Kane's unexpired term. In the following year he was elected for his third term, and was again elected in 1883, 1887, 1891 and 1893. His touch with politics was continued by his election in 1899 to the Legislature, in which, in 1901, he was Speaker of the House of Delegates. Public-spirited, upright, genial, affable and well-ac-

quainted with municipal affairs, he enjoyed the confidence and good will of his fellow-citizens in an eminent degree and held many honorable posts. He admirably typified the courteous well-to-do Baltimorean of the last half of the nineteenth century. A good liver and by no means an austere doctrinaire in politics, he was not an ascetic nor a protagonist of ideals, but took the world as he found it. In 1871, and again in 1885, he was counsel for the B. & O. Railroad. His knowledge of public affairs caused his appointment in 1898 as member of the Charter Commission and Court House Commission, the Municipal Art Commission (1903), Board of State Aid and Charities (1904), and (1909) to the Presidency of the Park Board. From 1901 to 1910 he was President of the Consolidated Gas Company.

FOREST RESERVES.

On February 15, 1911, Congress passed an act to create national forest reserves in the Southern Appalachians and White Mountains.

The purchase of land is placed in the hands of the Secretary of Agriculture

and is confined to such areas as may affect the head waters of navigable streams.

Authority for co-operation with different States is given and \$2,000,000 a year is appropriated until 1915.

FACTS FOR BUILDERS.

Buy one-fifth more siding and flooring than the square surface to be covered, on account of the lap or grooving. For 100 square feet of roof buy 1,000 4-inch shingles and 5 pounds nails. One thousand laths will cover 70 yards of surface, and 11 pounds of nails will

fasten them on. Eight bushels of good lime, 16 bushels of sand and one bushel of hair will plaster 100 square yards. Paint is an uncertain quantity, but as a general rule one gallon will cover 200 square feet of surface, two coats. One pound of pure ground white lead should cover 18 feet, three coats.

GRAND PRIX.

On June 25 at Longchamps the Grand Prix was won by the Marquis Ganay's As d'Atout, with F. J. Gould's Combourg second and Ephrussi's Matchless third.

King George's 3-year-old Dorando at New Market, June 27, won over six competitors.

APPORTIONMENT OF DELEGATES.

By the Constitution of the State of Maryland, Article 3, Section 5, it is made the duty of the Governor, "immediately after the taking and publishing of the next national census, or after any State enumeration of population," to arrange the representatives in the House of Delegates, as follows:

Every county having 18,000 population or less, 2 Delegates.

Every county having over 18,000 and less than 28,000, 3 Delegates.

55,000 and upwards, 6 Delegates.

28,000 and less than 40,000, 4 Delegates.

40,000 and less than 55,000, 5 Delegates.

Each of the four legislative districts of Baltimore, one Senator and as many Delegates as the largest county. No county can have more than six Delegates.

By proclamation April 15, 1911, Governor Crothers fixed the apportionment, in accord with the Federal census of 1910, as follows:

Net increase of Delegates, 1.

Each county has one Senator and Baltimore City four, making the total of Senators 27. The Legislature authorized a popular vote in 1911 on Constitutional Amendments looking to an increase of Baltimore's representation in the Legislature. These amendments were defeated.

JOHN T. PLEASANTS.

Mr. John T. Pleasants, for sixteen years connected with the SUN, died of apoplexy at his residence, 2103 N. Calvert street, March 7, 1911. Born October 1, 1860, at Petersburg, Va., Mr. Pleasants obtained his education at McCabe's School. His faculties were further disciplined by experience in teaching. His first taste of journalism was had in work for the Petersburg Index-Appeal. He served later, for a time, as reporter for the Philadelphia News. From the News he went to the Wilmington (Del.) Messenger to write editorials. In December, 1886, he married Miss Eva Kennedy-Laurie Dickson.

In 1891 Mr. Pleasants, returning to Petersburg, became a member of the editorial staff of the Index-Appeal. In 1894 he came to Baltimore, at first editing the SUN's Washington correspondence, and writing occasional editorials and afterward writing editorial articles exclusively. The striking characteristic of his work was painstaking carefulness, coupled with assiduity. He was at the SUN Office as early in the day and as late at night as were others who did there all their journalistic work, but he did not, as a

rule, write his editorials at the office, but wrote them at home in the afternoon, with a view to giving close study to the SUN's past utterances upon the topic he was about to treat. Detail was mastered with infinite patience. His laboriousness, in fact, was unlimited, with the result that his physique suffered from protracted strain unrelieved by diversions.

Tall, broad-chested, and well-formed, Mr. Pleasants was of a handsome figure. He was temperamentally calm, careful, considerate, courteous and amiable. His articles were vigorous and his themes were developed with nice judgment, in a style of much literary finish. His engaging traits endeared him to his associates. He told a good story well and was much sought by those of his colleagues who had something choice to tell for which they wished due appreciation. He loved also a dog and gun, and delighted in vacations spent in shooting expeditions in the wilds of Virginia and North Carolina. Such outings supplied welcome material for anecdotes full of charm for listeners who like him had heard "the call of the wild."

THE WEEK.

The week of seven days has been confined to those races who had recognized the seven planets, Mercury, Venus, Mars, Jupiter, Saturn, Sun and Moon. The Incas of Peru never detected more than the one planet Venus and their

week had nine days, apparently, with one-third of the duration of the moon's revolution around the earth. The Aztecs of Mexico, who were in ignorance of the planets, too, Venus alone excepted, had a week of thirteen days.

TO MEASURE HAY.

Multiply together the length, breadth and height of a windrow in yards, and divide the product by 25. The quotient will be the number of tons. Multiply the length, height and width in yards of hay in a mow and divide by 15, if the hay is well packed. If the mow be shallow and the hay has been but recently placed, divide by 18 or 15, according as the hay is packed. In square stacks multiply length and width of base in yards by half the height and divide by 15. In a load multiply length, width and height in yards and divide by 20.

UNITED STATES ARMY CADETS.

Appointment to West Point Military Academy.

Each Congressional District and Territory, the District of Columbia, and also Porto Rico, is entitled to have one cadet at West Point. Each State is also entitled to have two cadets at the Academy from the State at large, and forty are also allowed from the United States at large. The appointments (except those from the United States at large, the District of Columbia, and from Porto Rico), are made by the Secretary of War at the request of the Senator, Representative or Delegate in Congress; and the person appointed must be an actual resident of the State, District or Territory from which the appointment is made. The appointments from the United States at large and from the District of Columbia are conferred by the President. The appointment of the cadet from Porto Rico is made by the President on the recommendation of the resident Commissioner.

Application is made by letter to the Adjutant-General, to have the name of the applicant placed upon the register that it may be furnished to the proper Senator, Representative or Delegate, when a vacancy occurs. The application must exhibit the full name, date of birth, and permanent abode of the applicant, with the number of the Congressional District in which his residence is situated.

Appointments are made one year in advance of the date of admission, except in cases where, by reason of death or other cause, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next examination.

For each candidate appointed there may be nominated two alternates. The principal and each alternate receives from the War Department a letter of appointment, and must appear for examination at the time and place designated; those previously accepted by the Academic Board on certificate as mentally qualified appear for physical examination only.

No candidate is admitted under seventeen or over twenty-two, or who

is deformed, or afflicted with any infirmity which would render him unfit for the military service, or who has, at the time of presenting himself, any disorder of an infectious or immoral character. Accepted candidates, if between seventeen and eighteen years of age, should not fall below five feet four inches in height; if eighteen or over, not below five feet five inches in height. Candidates must be unmarried.

Candidates are examined mentally and physically before boards of Army officers, at such places as the War Department may designate, on May 1 of each year. Those who pass report to the Superintendent at West Point June 15 the same year. The mental examination is in reading, writing, spelling, English grammar, English composition, English literature, arithmetic, algebra through quadratic equations, plane geometry, descriptive geography, and the elements of physical geography, especially the geography of the United States; United States history, the outlines of general history, and the general principles of physiology and hygiene.

The Academic Board will consider and may accept properly attested certificates of competitive examinations or certificates from public high schools, colleges or universities in lieu of the regular mental entrance examination.

Every candidate is subjected to a physical examination by an Army medical board after his mental qualification has been ascertained. Before appointment he signs an engagement of service for eight years.

A cadet's pay is \$500 per year and one ration or thirty cents per day; total \$609.50, to commence with admission to the Academy. There is no provision for the traveling expenses of candidates who fail. A deposit of \$100 is made at entrance to cover cost of outfit. After receiving a diploma the cadet may be promoted and commissioned as second lieutenant in any arm or corps of the Army in which there is a vacancy.

THE MEXICAN REVOLUTION.

The re-election of President Diaz June 26, 1910, was offensive to many Mexican patriots, and riots followed in November at Pueblo, at the Capital and elsewhere. Insurrectos, led by Madeiro, toward the end of the year attacked various places held by the Federal troops, especially places like Juarez and Agua Prieta, near the Texan frontier. In March United States troops were ordered to Texas to control the situation on the American border. The Federal

Government was without its former vigor. An armistice was signed April 22, the insurgents demanding the resignation of Diaz and a free election. Hostilities are resumed when negotiations fail. May 7 Diaz offers to resign. Provisional President Madeiro is invited to the Capital to meet Diaz on May 18. Diaz resigns and May 25 De La Barra is chosen Provisional President by the Chamber of Deputies. Diaz sails for Europe. Madeiro elected President Oct. 1.

COMMISSION ON CITY PLAN.

President—Josias Pennington.

SALOONS AND LICENSES, BALTIMORE.

In 1907 the cost of a liquor license for a saloon, club, hotel or wholesale dealer was \$250. In 1908 the cost was increased to \$500, in 1909 to \$750 and in 1910 to \$1,000, at which figure it remains. No wholesale druggist's liquor license was issued prior to 1908, when the cost was fixed at \$250 by the high license law, which increased the cost of a retail grocer's license from \$250 to \$500. The cost of a bottler's license was \$40 in 1907, \$80 in 1908, \$120 in 1909 and \$160 in 1910 and thereafter.

IN HONOR OF CARDINAL GIBBONS.

On June 6, 1911, at the Fifth Regiment Armory, Baltimore, some 20,000 persons—including the President and Vice-President of the United States, ex-President Roosevelt, the Chief Justice of the Supreme Court, the Speaker of the House of Representatives, ex-Speaker Cannon, many Senators and Representatives, the British Ambassador, the Governor of Maryland, the Mayor of Baltimore and many clergymen of various denominations—assembled to testify esteem and admiration of Cardinal Gibbons, the occasion being the celebration of the fiftieth anniversary of his service as priest and the twenty-fifth anniversary of his elevation to the office of Cardinal. Addresses were made by President Taft, Speaker Clark, Governor Crothers, Mayor Preston and others in appreciation of the Cardinal as a great American and a

typical Baltimorean, admirable alike in his private and public life. In his address on the significance of the occasion, Senator Root said: "Cardinal Gibbons has illustrated in his conduct, his labors, his devotion to good causes, all that we should like our children to admire and follow. Under his guidance his church, his people and his followers have always stood a bulwark against atheism and anarchy, against the tearing down of those principles of morality and of government upon which the opportunities of our country depend."

Cardinal Gibbons was born July 23, 1834, on Gay street, Baltimore; became a priest June 30, 1861, and Cardinal June 7, 1886. The Hierarchy of the Roman Catholic Church in the United States October 15, 1911, celebrated in Baltimore his jubilee, and 31,000 persons marched in procession in his honor.

INTERCOLLEGIATE REGATTA.

At Poughkeepsie on the Hudson, June 27, the Cornell eight won the varsity race over the four-mile course by a length and a half. Cornell's time was 20 minutes 10½ seconds; Columbia's, 20 minutes 16½ seconds; Pennsylvania's, 20 minutes 33 seconds; Wisconsin's, 20 minutes 34 seconds; Syracuse's, 21 minutes 3¾ seconds.

The two-mile eight-oared freshman race was won by Columbia, Cornell second, Syracuse third, Pennsylvania fourth and Wisconsin fifth. Their time, respectively, was 10.24½, 10.20½, 10.24½, 10.24½, 10.38.

The two-mile four-oared race was won by Cornell by half a length, with Syracuse second, Columbia third and Pennsylvania fourth. No time taken.

more; Caroline, Dorchester, Garrett, Kent, Somerset, Talbot and Worcester counties. Anne Arundel prohibits hunting by non-residents of the county except by permission of landowners; Charles permits non-residents to hunt without license on the host's land under his written permission, but prohibits them from hunting waterfowl under any conditions.

RESIDENT LICENSE.—Fees (including clerk fees) as follows: Anne Arundel, pusher \$2, booby and brush blind (west side of Chesapeake Bay) \$5. (South River) \$2.50; Baltimore, \$1.25 (rabbit, squirrel, quail, grouse, jacksnipe); Cecil (on Bohemia and Elk rivers), sneak-boat \$5.50, (on Bohemia, Elk and Sassafra rivers), sink-box \$10.50; Harford, sneak-boat \$5.75, sink-box \$20.75; Patuxent River, pusher \$2.50; Queen Anne, booby blind \$2.50, sink-box \$5.50; Susquehanna Flats, sneak-boat \$5.75, sink-box \$20.75.

The Federal Law prohibits shipment from the State of game killed in violation of the laws of that State; that is, game killed during the close season, by illegal methods, or for sale when sale or export are prohibited by the State. Penalty, fine not exceeding \$200. (Carrier and consignee may also be liable.)

The Federal Law also prohibits shipment of game from the State at any time, in packages not marked so that name and address of shipper and nature of contents may be readily ascertained by inspection of the outside of the package. Penalty, fine not exceeding \$200. (Carrier and consignee may also be liable.) The State law prohibits shipment under certain conditions, as shown.

Details in regard to shipment, sale and licenses are contained in Farmer's Bulletin No. 336, "Game Laws for 1908," which may be had free upon application to the Secretary of Agriculture, Washington, D. C.

Additional Provisions for Open Season in Virginia.

OPEN SEASONS.—Mud Hen, Gallinule, Surf Bird, Sandpiper, Willet, Tattler, Curlew, July 20-Jan. 1.

LOCAL SEASONS.—County boards of supervisors have power to shorten open seasons. Such changes are not here included.

All shooting prohibited on Sunday or at night; and shooting wild fowl on Back Bay, Princess Anne county, on Wednesday and Saturday.

NON-GAME BIRDS.—All wild birds (except game birds and certain injurious species) protected throughout the year. No protection is given to English sparrows, blackbirds, ricebirds, crows, doves, hawks, owls, eagles, robin snipe, or English (or Wilson) snipe. Nighthawks are also exempted from protection in Brunswick and Greensville counties. An open season, Feb. 15-Apr. 1, is provided for robins.

EXPORT.—Export of deer and game birds (except sora) prohibited at all times except as follows: A non-resident hunting legally may take with him out of the State, open to view and labeled with his name and address, 1 deer, 50 quail (partridges), 10 grouse (pheasants), 3 wild turkeys, 30 waterfowl, and shore birds to the number of 25 of each kind or 100 in all, killed by himself; any citizen of the State may, during the open season, ship from the State as a gift, and so marked on the shipping tag, 1 deer, 18 quail (partridges), 6 grouse (pheasants), 3 wild turkeys, and 12 waterfowl, open to view, labeled with names and addresses of donor and donee and number and kind of game in each package; county supervisors may permit export of waterfowl.

SALE.—Sale of robins, quail (partridges), grouse (pheasants), or woodcock prohibited at all times.

NON-RESIDENT LICENSE.—Issued by county clerk. Fee (including clerk fee), \$10. Not required for hunting rabbits or sora. A guest of a landowner requires no license if hunting on his host's land, with him or a member of his family provided his host receives no compensation directly or indirectly.

OPEN SEASON IN DISTRICT OF COLUMBIA.

Hunting permitted only on marshes of Eastern Branch above Anacostia Bridge and on marshes on Virginia shore of the Potomac, provided birds are not hunted within 200 yards of any bridge or dwelling. The following seasons for upland game, marked with a star (*), apply only to possession and sale:

*Rabbit—Nov. 1-Feb. 1. *Squirrel—Nov. 1-Feb. 1. *Quail (partridge)—Nov. 1-Mar. 15. *Grouse (pheasant)—Nov. 1-Dec. 26. Dove—No open season. Woodcock—July 1-Jan. 1. Reedbird, Rail (ortolan)—Sept. 1-Feb. 1. Plover, Snipe—Sept. 1-Apr. 1. Duck—Sept. 1-Apr. 1.

MARYLAND INSTITUTE.

Schools of Art and Design, Industrial Drawing, Decorative, Illustrative and Fine Arts.

President—John M. Carter.

Secretary—James Young.

The school was organized in 1848. In 1910-1911 it had 50 teachers and nearly 1,600 pupils. The courses embrace training in drawing, design, painting in oil and water colors, modeling in clay, illustration, and the industrial features of mechanical and architectural drawing, design and applied art, carried on in the actual materials of clay, metal, wood and leather. There are evening classes in silversmithing and

jewelry and in sheet metal pattern drafting.

The Mount Royal avenue building gives accommodation for the entire day school and the free-hand night classes. The mechanical and architectural divisions of the night school occupy the building at Market Place and East Baltimore street, where also there is maintained a Saturday elementary mechanical class.

The qualifications of candidates for admission into this free school for boys, founded by John McDonogh, who was born in Baltimore, December 29, 1779, and died in New Orleans, October 26, 1850, are as follows:

1. They must be poor boys of good character, of respectable associations in life, residents of the City of Baltimore.

2. They must be sound and healthy in mind and body.

3. They must be between 10 and 14 years of age.

4. They must pass a competitive examination.

Applications for admission should be made to Robert H. Smith, president of the Board of Trustees, 624 Equitable Building, at any time of the year. Applications, however, are so numerous that admission is determined by competitive examinations held early in June at some convenient place in Baltimore, of which candidates are notified. The

examinations are based on the work of the Public Schools of Baltimore, a different set of questions being given to the boys of the several grades—Third, Fourth, Fifth and Sixth. The subjects of examination are arithmetic, reading, geography and a composition on an assigned subject as a test of the knowledge of English. The regular term at the school ends when the boy is 16 years of age, but the earning of an honorary scholarship may enable him to continue there one year longer.

The property of the foundation consists of 835 acres of land in a beautiful and healthy region, 12 miles northwest of Baltimore City, with commodious buildings; an endowment fund of \$725,600 from John McDonogh invested in Baltimore City bonds; bequest of Dr. Zenus Barnum of \$80,000 to promote mechanical instruction and manual training; bequest of Samuel H. Taggart of \$175,000.

STATE ROADS COMMISSION.

The State Roads Commission is charged by the Acts of 1908 and 1910 with the construction of a system of highways throughout the State for which appropriations of \$6,000,000 have been made. It also administers the State Aid and Baltimore-Washington Acts.

COMMISSION.

Governor Phillips Lee Goldsborough		Chas. B. Lloyd.....	\$2,000
J. M. Tucker (Chairman).....	\$2,500	W. W. Crosby, Chief Engineer.....	5,000
Ira Remsen.....		E. F. Ruggles, First Assistant.....	2,600
Wm. Bullock Clark.....		W. D. Uhler, Second Assistant.....	2,500
S. M. Shoemaker.....	2,000	E. E. Goslin, Secretary.....	1,800
Francis C. Hutton.....	2,000		

On January 1st, 1911, the State Roads Commission had completed 53.68 miles of State road, costing \$480,681.28, and up to the same date there had been completed by the Maryland Geological Survey (and its successors, the State Roads Commission, after June 1st, 1910) 140.91 miles of State-aided road, costing \$1,160,239.42, and 18.57 miles of the Baltimore-Washington road (State road No. 1), costing \$237,723.28. On that date the outstanding work was as follows:

State roads, 211.46 miles; estimated cost, \$2,687,590.15.

State-aided roads, 18.69 miles; estimated cost, \$226,796.20.

During 1911 work under both the State road and the State-aid road laws has gone forward. Nineteen contracts for 58 miles, at a cost of \$613,480.02, have been let for State roads, and 8 contracts for 11 miles, at a cost of \$125,120.88, have been let for State-aided roads. At the close of 1911 the situation regarding the work is as follows:

	Completed.		Under Way.
	Miles.	Cost.	Estimated Cost.
State Roads.....	171.95	\$1,931,469.42	159.33 \$2,138,697.50
State-Aided Roads.....	166.49	1,405,180.45	12.10 138,143.74
Baltimore-Washington Road.....	18.57	237,723.28	
Baltimore-Annapolis Road.....	3.02	50,100.00	10.18 149,951.12

In addition to the construction referred to above as being carried on by the State, the Roads Commission has purchased 131.15 miles of turnpike from the private owners thereof, at a cost of \$263,020, and thrown them open to the public. The collection of tolls thereon

has been stopped and the State Roads Commission is maintaining these old toll roads at the expense of the State for the general benefit. The Commission has also purchased and freed from tolls the bridge over the Susquehanna River at Conowingo, at a cost of \$88,000.

State Forester and Secretary—F. W. Besley.....	Baltimore.

The State Board of Forestry was established by an act of the General Assembly of 1906, and is engaged in the study of the forest conditions of the State and in making a forest survey. The State Forester gives advice to the owners of woodlands regarding their management and is also in charge of the forest areas which have been presented to the State.

Up to October 1, 1911, all the counties of the State except Charles had been surveyed, a forest map for each

prepared and data for a report upon the forest conditions secured.

There are several State forest reserves of small area.

The wooded area of Maryland embraces 2,165,232 acres, or 35 per cent. of the total area. There are in trees 10 inches or over in diameter $4\frac{1}{2}$ feet from the ground 3,316,023 M bd. ft., of which 2,234,457 is hardwood and 1,081,566 pine. The stumpage value is approximately \$13,145,650.

The Board has issued reports for 1906-7 and 1907-8, and twelve publications on forestry topics.

PLATFORM OF DEMOCRATIC PARTY OF MARYLAND.

Adopted in State Convention at the Auditorium, Baltimore, September 7, 1911.

Chairman of Convention, Gen. Joseph B. Seth, of Talbot County.

There were present 129 delegates, chosen—for the first time in the history of the State—in a primary election, of which number 65 were chosen to nominate Senator Arthur Pue Gorman, Jr., and 64 to nominate Senator Blair Lee for Governor; and 91 to nominate Emerson C. Harrington and 38 to nominate William S. Evans for Comptroller. Edgar Allan Poe had without contest been chosen to be nominated for Attorney-General. The nominations were made unanimous.

NOMINEES OF CONVENTION.

For Governor—Senator Arthur Pue Gorman, Jr., of Howard county.

For Comptroller—Emerson C. Harrington, of Dorchester county.

For Attorney-General—Edgar Allan Poe, of Baltimore city.

Gen. Murray Vandiver was unanimously re-elected chairman of the State Central Committee.

PLATFORM OF 1911.

After commending and endorsing Governor Crothers' administration and the efficient, progressive and clean management of affairs under Democratic auspices and pledging the party to continue its devotion to the welfare of the whole State, the platform proceeds:

The Democratic Conventions of 1907 and 1909 pledged the party to the passage of such measures of reform in the election laws applicable to both primary and general elections, as would rid the State of the odious and corrupt practice of bribery at elections and enable the people by direct vote to nominate their candidates for office.

We note with gratification and pride that these pledges have been redeemed, and that the Corrupt Practices Act and Primary Election Law passed by Democratic Legislatures and approved by a Democratic Governor have had a wholesome and splendid effect upon our elections, both primary and general.

The principle of direct voting as embodied in the present State-wide Direct Primary Election Law, enacted by the last Democratic Legislature, must be preserved and rigidly enforced, and the Democratic party of this State is hereby pledged so to do.

No changes should be made in the present Direct Primary Law without careful consideration, but experience has demonstrated the fact that certain specific amendments must be made to said law and to the general election law, in order that those laws may better accomplish the purposes for which they were enacted—namely, the securing of a free and fair expression of the popular will in the primary and general elections.

To this end we hereby pledge the Democratic party of Maryland to the enactment of the following specific measures:

a. An amendment to the General Election Law which will provide for a new registration in the counties by May 15th of 1912, in order that the party affiliation clause in the present Primary Law may become operative.

b. Provide for sittings of registration officers prior to party primaries for the purpose of revising the registration lists, adding new voters, making transfers, etc.

c. Amend the Primary Election Law by providing that no change of party affiliations shall be effective unless made at least six months prior to the primary election.

d. Provide that in the counties no ballot shall be handed or delivered to any voter within one hundred feet of the election booth, or within the booth itself, except the unmarked ballot now required to be handed to him by the election officials to provide for such representation in the selection of judges and clerks as will safeguard the rights of all candidates for nomination to office and give them an equal chance without regard to preference of party organizations.

e. Provide that hereafter only the buyer of a vote at primary elections shall be punishable under the law, and that one-half of the fine imposed upon the briber shall go to the informer. This is the surest guarantee against the buying of votes that can be devised at primary elections.

In order to make such a provision applicable to the general elections, it will be necessary to amend the Constitution of the State, and the party is pledged to the passage of a law submitting such an amendment to the voters of Maryland.

f. We recognize the fact that it is absolutely essential to the welfare of the Democratic party, as well as to the welfare of the people of Maryland generally, that not only the primary elections should be conducted fairly, but that the people should have confidence in the fairness of such elections.

PLATFORM OF DEMOCRATIC PARTY OF MARYLAND—Continued.

The Democratic party in convention assembled declares its resolute purpose as far as possible to put a stop to all and any violations of this law, and demands the punishment of any election officers or others who may be found to have committed any offenses against it.

In order to insure the fair counting of all ballots cast at primary elections in this State, including both counties and the City of Baltimore, the Democratic party hereby specifically pledges itself to the enactment of a law providing for a recount of the votes at every primary and general election as a matter of right, upon petition of any defeated candidate or upon the petition of five per cent. of the registered voters of any county or legislative district; said recount to be made in open court by tellers appointed by the court, in the presence of the opposing candidates or their representatives, and to apply to such voting precincts as the petitioning parties may designate.

In cases where there is no *prima facie* evidence of fraud, error, corruption or other irregularities presented, the court may in its discretion require the petitioner or petitioners to give bond for the payment of the costs of recount. At the termination of the recount the court shall award the costs in its discretion and may put the costs upon the State, county or municipality. Said recount shall be had immediately with all possible expedition and dispatch and in preference to all other court business; the court to be required at the conclusion of the recount to compel the proper election officials to make any changes in tabulation of the votes and in the certificate required to be given under the law which such recount may show to be necessary.

g. We further pledge the party to the enactment of a law holding the annual State-wide direct vote primary on some day not earlier than the 8th nor later than the 15th of September of each and every year, except the Presidential years. And that in Presidential years the said primaries shall be held on the last Tuesday in May.

h. We further pledge the Democratic party to the enactment of an amendment to the senatorial primary election law so as to provide for the conduct of the senatorial primary by the regular general election officials on the day of election in November in the same voting booths as the general election by the registered, qualified and affiliated voters of the respective political parties.

We pledge the Democracy to strengthen the Corrupt Practices Act by still further limiting expenditures upon the part of candidates and their political agents and the treasurers of political

committees and by limiting the compensation and number of messengers, runners and similar employees at or about the polls, as well as in such other respects as experience and enlightened reflection may suggest.

In the Convention of 1909 the party committed itself to the creation by appropriate legislation of a public utilities commission applicable to all public service corporations.

We point to the fact that this pledge was likewise redeemed by the Legislature of 1910, and that the law under the supervision of a competent Board of Commissioners is now in successful operation and we favor its continued enforcement without material change.

We consider it of the greatest importance that the work now in progress of building and improving a modern and up-to-date system of good roads and highways at the expense of the State shall be continued and extended, and we pledge ourselves to the enactment of such legislation as experience has taught us is necessary and proper to more economically and speedily build the roads; and we favor the use of local material for construction purposes wherever it may be feasible.

At the Democratic Convention of 1909 the party promised to enact a law proposing an amendment to the Constitution of the State, granting to the people of Baltimore City increased representation in the General Assembly.

In fulfillment of this promise the General Assembly of 1910 did provide for the submission to the voters of the State at the State election to be held in November, 1911, such an amendment to the Constitution. The Democratic party having discharged its obligation, this question is now before the people.

We also declare that the City of Baltimore should be permitted to enjoy the highest possible degree of local self-government, and that, therefore, the Legislature should afford an opportunity to the legal voters of the city to either ratify or reject the New Charter as finally recommended by the Charter Revision Committee.

Baltimore City, the metropolis of the State, is in the midst of great improvement along the lines of better pavements, new sewerage system, etc., and we pledge the party to the passage of such enabling acts as may be required to successfully carry out the projected improvements, all of which we submit can better be done under a Democratic State Administration in sympathy with the City Administration.

Since the passage of the Acts of 1900 and subsequent Acts of the General Assembly providing the merit system for appointment to the police force of Baltimore City, the Police Depart-

ment has been kept free from politics, and we favor a continuance of the existing merit system and such rigid enforcement of it that politics or partisanship shall in no sense invade the Department.

As in the Police Department, so in the Liquor License Board, politics and political influences should not be permitted to enter.

Although, owing to the growth of the operations of the State Government and of the work of the General Assembly, an increase in administrative and legislative expenses has been necessarily entailed, the Democratic party hereby pledges itself earnestly and faithfully to use all means to reduce the costs and expenses of administration and of legislation by abolishing needless offices and by limiting the number of departmental and legislative employes to the lowest number which may be able to discharge the actual needs of the various administrative departments and offices.

We pledge ourselves to the enactment of an Employers' Liability Act, under which justice shall be done to the working and laboring men and women of the State and their families, and without injustice to employers; and also to the passage of such legislation as may be constitutionally feasible for the due protection of the miners of Western Maryland.

By reason of the number and fatality of accidents growing out of the reckless driving of automobiles, and of the danger and inconvenience thereby occasioned to the people, we note the necessity of amendments to the present Automobile Law, providing effective penalties for such misconduct upon the part of owners of motor vehicles and their agents.

We would foster the interests of agriculture by introducing into our public schools, especially in the counties, modern and advanced education and training in agriculture and farming, by improving and enlarging the present plan of Farmers' Institutes, and by improving the curriculum and equipment of the Maryland Agricultural College with a view to extending its practical usefulness through the rural sections of the State.

We advocate the improvement of the health laws of the State in all such respects as experience has shown to be desirable for the fullest protection of the health of the people.

We pledge the Democratic party of the State to do all that may be constitutionally possible for the development of the resources of the counties of Southern Maryland, and the improvement of that section commensurate with other parts of our State.

The welfare of a free state depends upon the intelligence of its people. The education of the children of the people is a supreme interest and duty of the State. We pledge ourselves to the ample support and to all possible improvement in the public school system of Maryland, and to that end to a just and reasonable increase of the salaries of the teachers in our public schools.

Realizing that not only the progress and improvement of the State, but its tranquility, order and safety, its dignity, fame and good government, indispensably and supremely demand supremacy of its white population—the clear and undoubted rule of the white race, who represent its civilization—and pointing to the fact that the Democratic party of Maryland is composed of approximately three-quarters of the white population of the State, whilst more than half of the membership of the Republican party consists of negroes, without whose unthinking and undivided support the Republican party would be an insignificant minority, we solemnly admonish the people of Maryland against the dangers of Republican success in this State—dangers illustrated not only throughout our sister States of the South until a comparatively recent period, but in our own cherished Commonwealth during the unhappy term of Republican misgovernment from 1896 to 1900. We recall to the minds of the people that in little less than one-half of the counties of this State the negro vote is so excessively large and numerous that in those counties Republican government is negro government, pure and simple, and we appeal to the intelligence, the justice and patriotism of the white people of Maryland to save their white brethren and sisters in these counties from the evils of negro domination.

Speaking for the Democracy of our Commonwealth, we declare that the political destinies of Maryland should be shaped and controlled, and its internal tranquillity guarded and preserved, by the white people of the State; and whilst we disavow all intention to do injustice to our colored population, we declare without reserve our resolute determination to preserve in every conservative and constitutional way the supremacy of our race.

We congratulate the Democratic Senators and Representatives in the National Congress of 1911 that at the Special Session they did so literally and wisely fulfil every party pledge.

We extend our felicitations to the National Democracy upon the success that has attended the cause since the Maryland Democracy last met in Convention. In 1906 the country had only

nineteen Democratic Governors; since then every State election has shown gains for our party; at the election of 1910, Maine, went Democratic for the first time in thirty years; Massachusetts, Connecticut, New York, New Jersey, Indiana and Ohio are now in the Democratic column, and today, the flag of the Democracy floats in triumph

from the capitals of twenty-six States of the Union.

All of this indicates that the trend of public sentiment is in favor of the election of a Democrat in the next Presidential election, and in behalf of our State, we ask that the Democratic National Convention of 1912 be held in the City of Baltimore, so that the next President of the United States may first be named on Maryland soil.

PLATFORM OF REPUBLICAN PARTY OF MARYLAND.

(Adopted in Convention at Albaugh's Theatre, Baltimore, September 7, 1911.)

Chairman of Convention—Alexander Hagner, of Washington County.

There had been no opposition to the candidates and their nominations had been certified by the various boards of election supervisors. The 129 delegates accordingly voted unanimously.

Nominees.

For Governor—Phillips Lee Goldsborough, of Dorchester County.

For Comptroller—John H. Cunningham, of Carroll County.

For Attorney-General—Morris A. Soper, of Baltimore City.

John B. Hanna was elected chairman of the State Central Committee for two years from April, 1911.

Platform of 1911.

After commending President Taft's administration and declaring that local issues are paramount in the State campaign, the platform proceeds:

The plain logic of recent events has framed the overshadowing issue of the campaign. A crisis has been reached in the affairs of the City of Baltimore and the State of Maryland. The scandalous contempt for public opinion exhibited by the coterie in control of the Democratic organization has aroused the citizens of the State, regardless of party affiliation.

The forcing of notoriously unfit nominations by the party machine has evoked a State-wide resentment. The misuse of the powers of the office of president of the State Senate to prevent the performance of sacred party pledges has been deemed worthy of reward in the form of nomination for the highest office in the gift of the people of Maryland. The betrayal of the people of Baltimore City in submissive obedience to the orders of the city boss has been rewarded by the nomination for the important office of State's Attorney for Baltimore City.

The plain issue is, Shall the government of the State of Maryland, with its

incidental control over the City of Baltimore, be delivered into the hands of the political boss to be used for his own profit and advantage to an extent never before known in the history of the State, or shall the people of Maryland vigorously declare their determination to be their own masters and to compel the administration of the government for the benefit of all?

Political corruption cannot endure without fraudulent elections. We stand for fair elections and a uniform ballot throughout the State that will afford to all citizens of every party equal opportunity to vote for the candidates of their choice.

It is certain that the fraudulent practices and trick ballots from which the citizens of the so-called Wilson law counties, and consequently all the people of the State, have suffered, have been forced upon them by partisan election officials, not only to injure the Republican party in those counties but for the prime purpose of crushing out any indication of independence of

PLATFORM OF REPUBLICAN PARTY OF MARYLAND—Continued.

thought and action on the part of any of the citizens of any party who undertook to oppose the Democratic organization.

We believe that there is no State in the Union in which it is so difficult for men of intelligence to cast their votes correctly and to make certain that they are counted as in the State of Maryland; and certainly no set of men, despite repeated rebukes and defeat, has been so persistent as the Democratic organization in this State in its repeated attempts to tamper with the election machinery. We call attention to the implied threat in the proposed suffrage amendment to the Constitution of Maryland that, should it fail to pass, the Democratic organization will feel free to enact legislation which will give to it a majority of the election officials in every polling place in the State, and place the accuracy of the election returns entirely at their mercy.

In the Legislature of 1910 the president of the Senate introduced and sought to have passed a bill, the purpose of which was to place the selection of Republican clerks and judges of election entirely in the hands of Democratic Supervisors of Elections. The president of the Senate is now the Democratic nominee for the office of Governor in this election. His nomination was brought about chiefly by the joint efforts of the head of the Democratic organization in Baltimore City and of the junior United States Senator from Maryland.

For many years the city boss has been notoriously active in the partisan manipulation of the election laws. Our junior Senator is more responsible than any other man in the State for that change in the election laws which led to the passage of the Wilson Ballot laws, in the operation of which thousands of citizens of all parties are disfranchised.

We believe that the proposed Digges amendment to the Constitution of Maryland relative to the suffrage should and will meet with overwhelming defeat. Twice before, in the year 1905, when the Poe amendment was submitted, and again in the year 1909, when the Straus amendment was proposed, the Democratic organization received a stinging and merited rebuke from the citizens of Maryland, regardless of party. The present flagrant attempt to place the State of Maryland in an attitude of open defiance to the Constitution of the United States arouses the indignation of the people to such an extent that many of the members of the Democratic party already counsel that the fight for its adoption be abandoned; but we caution all citizens to be alert upon this propo-

sition to make of Maryland a one-party State and urge its defeat in so unmistakable a manner that the Democratic organization will be finally moved to abandon its long-continued fight upon the rights of citizens and the constitutional integrity of the ballot.

We approve the principle of a State-wide primary and the freest exercise by all the people of their undoubted right to name their candidates for office. But in order to accomplish this purpose the present statutes must be amended so as to insure the secrecy of the ballot, to safeguard the interests of all contestants for the nominations, to provide for the recount of the ballots in case of fraud, and to place such contests within the reach of men of modest means.

The provisions of the law in regard to the affiliation of voters in Baltimore City should be applied to the entire State.

We favor the strict enforcement of Corrupt Practices act in both primary and general elections, not only as against persons of different political faith from the prosecuting officials and the party in power in the several localities of the State, but as against all persons of any party who may offend against its provisions.

We condemn the flagrant violation of the law in the recent Democratic primary, and deplore the resultant uncertainty in the minds of the people as to which of certain candidates in truth received a majority of the votes.

We believe in the election of United States Senators by direct vote of the people on the Oregon plan, and that an amendment of the Constitution of the United States should be passed in order that the principle of the election of Senators by the direct vote of the people may be incorporated in the fundamental law of the nation.

We emphatically condemn the expenditure of enormous sums for the expenses of the Legislature of 1910. Many thousands of dollars could have been saved to the State of Maryland which might have been used for schools, good roads or other public improvements had not the present Democratic candidate for Governor, while President of the Senate, ignoring the insistent public demand for retrenchment and repudiating the axiomatic principle of common honesty in the expenditure of public funds, knowingly created a large number of useless positions for employees in the Senate of Maryland and paid them unearned salaries with the taxpayers' money.

We renew our declaration in favor of the policy of building good roads throughout Maryland by the State government upon the most approved and

PLATFORM OF REPUBLICAN PARTY OF MARYLAND—Continued.

modern plans that the State is financially able to adopt. But at the present rate of expenditure the cost of completion of the system would be so great as to exceed any sum which the resources of the State would justify the State to expend.

We believe in the completion of the system throughout the State and that a rigid and searching investigation of the work of the commission should be made in order to put the people in possession of full and complete information and enable them to form an intelligent conclusion as to mode and cost of construction to be adopted in the further prosecution of the enterprise.

We reaffirm the declaration of our platform in 1909 in favor of the revaluation and reassessment of property in order to equalize the burdens of taxation, but we denounce as unsatisfactory and unjust the administration of the reassessment act of 1910 and pledge ourselves to the support of legislation looking to the creation of a representative State board of assessment and equalization.

We favor the submission to the voters of this State of an amendment to the Constitution which shall make it possible for the counties and Baltimore City to classify property for the purposes of local taxation in such manner as may seem to said counties or city best suited to promote their local development and manufacturing industries.

We believe that all proper efforts should be made for the conservation of the State's wealth and resources, and favor legislation looking to the reclamation of swamp lands in Maryland.

We favor increased efficiency of the Bureau of Immigration in order that a more energetic and systematic effort may be made to encourage the settlement in Maryland of immigrants from foreign countries and citizens of other States, so that the vacant lands of the State may be cultivated and the wealth of the State increased.

The Public Utilities Commission should be upheld in the exercise of its duties and its powers strengthened wherever it shall appear that the commission has not sufficient authority to deal with the important questions within its jurisdiction. It should be composed of men of the highest type of character and ability, of sufficient energy and initiative to secure for the public without unnecessary delay all that it justly deserves, and yet of sufficient strength and conservatism to withstand any effort to be unjust to the great interests which the public utility corporations represent. Such men we pledge our candidate for Governor to appoint.

Recognizing the fact that the existing law in Maryland regulating the compensation of workmen injured in industrial accidents is unsatisfactory, both to the employer and the employee, and productive in many cases of great injury to both, we favor such legislation as will correct the evils of the present system.

We believe that the constitutional amendment to be submitted to the voters at the coming election, whereby Baltimore City will have not less than 35 representatives in the House of Delegates and 6 Senators in the Senate of Maryland, should be passed, and we pledge ourselves to its support, but we believe that said representation is still inadequate in consideration of the large population of Baltimore City, and we reaffirm our declaration contained in the State platform of 1909.

The new Charter of Baltimore of 1898 was prepared by a commission selected by a Republican Mayor and City Council, was adopted by a Republican Legislature and was approved by a Republican Governor. The finances of the city were thereby placed upon a sounder basis, a floating debt was prohibited, public franchises protected and legislation by the City Council safeguarded. As an advance in the same direction we approve the recommendations made by the Charter Commission of 1910, and we pledge ourselves to support and secure, if possible, the passage of the amendment to the Charter of Baltimore city on the lines laid down by the Charter Commission of 1910.

We pledge our candidate for Governor to make only such appointments to the Board of Police Commissioners and to the Board of Liquor License Commissioners of Baltimore city that the affairs of these important commissions shall be administered impartially, in the interests of the people of Baltimore city and not in the interests of any political party.

We are convinced that it is most important that men of the highest character should be appointed to the office of station house magistrate in Baltimore city, and that the investigation of charges of crime and trials of persons accused of crime should be held in such a manner that the welfare of the community and of the accused should be the only considerations, without any reference whatsoever to the fortunes or welfare of any political party.

Since the justice of the peace is the one to whom a large portion of the people must look for the settlement of matters in dispute and the redress of wrongs, it is important that these positions be filled by men of training and recognized standing in the com-

PLATFORM OF REPUBLICAN PARTY OF MARYLAND—Continued.

munity. We believe that the interests of the people of Baltimore city require the enactment of legislation looking to the enactment of a people's court.

It is of the utmost importance to the people of Maryland that every possible aid be extended to the cause of public education. We therefore declare our belief in the wisdom and justice of such additional appropriations for our public school system, to build sufficient schools to adequately accommodate all the children and to guarantee to the underpaid teachers of our State a more generous compensation for the duties they are called on to perform.

We believe that the intelligent efforts of the progressive public-spirited women of our State to improve social, industrial and educational conditions should receive the highest praise, and we most heartily favor a more active and general participation of women in the management of our public schools.

It is absolutely essential to the best interests of the children of the State, that the administration of the schools be completely divorced from politics.

While assenting most heartily to the doctrine that the State should make liberal appropriation for education and the care and support of the indigent and dependent, we denounce the haphazard and unsatisfactory method in which such appropriations have been made in the past, and pledge ourselves to a businesslike administration in this regard, to the end that the money of the State shall be appropriated only after careful investigation, and then to such institutions as can accomplish most good therewith.

We recognize the importance of the fight against tuberculosis, and that the State, for its own protection, must provide for isolation of tubercular patients, and we therefore pledge ourselves to the hearty support of the work already undertaken, and to its extension along most enlightened and scientific lines.

We favor State care of the indigent insane and feeble-minded.

Not only should the rights of citizens of the State be protected, but the rights and dignity of United States citizenship should be respected abroad as well as at home, and we declare that it is the unquestioned duty of the Government to procure for all our citizens, without distinction, the rights of travel and sojourn in countries with which we are in treaty relations. We declare ourselves in favor of the adoption of all efforts tending to that end, and where necessary to attain it we favor the termination of treaty relations with such country as disregards its treaty obligations.

Recognizing that the agricultural interests are at the basis of State and national prosperity, we pledge ourselves to the creation of a Commission on agriculture, which shall look to the consideration of and every wise furtherance of the interests of agriculture in this State.

This declaration of principles and of policies must be subordinated to the great fundamental issue, shall the citizens of Maryland retain control of their own government for their own benefit and the public advantage, or shall they surrender the government to the unclean hands of the politicians, who have selected the candidates, to be used for such politicians' profit and advantage?

The unfortunate success of the city boss in the primaries, due to no inconsiderable degree to fraud in the counting of the ballots, has created the imminent danger of the extension of his baleful influence to the counties of the State. Our citizens must decide whether vice shall divide its polluted gains whether crime shall be licensed and the public service corporations pay tribute to the dictators of nominations or the government be devoted to the service advancement and welfare of the people.

(Adopted in Convention at Bohemia Hall, Baltimore, August 6, 1911.)

Chairman of Convention—Jacob M. Levy, of Baltimore.

Nominees.

For Governor—Charles E. Develin, of Baltimore.

For Comptroller—Harry D. Rider, of Havre de Grace.

For Attorney-General—Charles B. Backman, of Baltimore.

Platform of 1911.

After passing resolutions and voicing certain demands, the convention declares:

We, the Socialist party of the State of Maryland, in convention assembled, reaffirm our allegiance to the Socialist party of America and to the principles of international Socialism.

We declare that the purpose of government is to secure to its citizens the inalienable rights of life, liberty and the pursuit of happiness, and that our present system of economic inequality makes this impossible.

Realizing that the trustification and centralization of industry are the inevitable results of our social and industrial development, we declare that the only possible remedy for the present economic, political and social evils is the elimination of private ownership and substitution therefor of the public ownership of all things necessary for public use and enjoyment, thus securing to the workers all the wealth they create.

Government as now constituted brings the expression of capitalistic domination and influence which regards profit and property rights as paramount to the lives, liberties and safety of the toiling masses. We, the wage-workers of Maryland, do, therefore, declare that in order to overthrow the unwarranted usurpation of power by the capitalist class we intend to wrest from the grasp of capitalism the functions of government by the means of the ballot, and that these shall be administered for the benefit of the working class, regardless of sex, race or religion.

We, therefore, call upon the wage workers of Maryland to organize under the banner of the Socialist party into a class-conscious body, aware of its rights and determined to secure and maintain them, thereby ending the existing class conflict and substituting an industrial democracy in place of the present classless and chaotic economic system.

THE NEW CONGRESSIONAL REAPPORTIONMENT.

Under the new Reapportionment Act (Public No. 5, approved August 8, 1911) it is provided that after March 3, 1913 (this being the day marking the close of the Sixty-second and the beginning of the Sixty-third Congress), the House of Representatives, on the basis of the thirteenth census, taken in 1910, shall consist of 433 members, instead of 391, as at present. This will be an increase of 42 members. In salaries of members alone, this represents an additional expense of \$315,000 annually. The new reapportionment—shown in comparison with the old—and the increased representation of various States in the House is as follows:

States.	New 1910 Reapportionment.	Old 1900 Apportionment.	Increase.	States.	New 1910 Reapportionment.	Old 1900 Apportionment.	Increase.
Alabama	10	9	1	Nevada	1	1	...

Missouri	16	16	...	Wyoming	1	1	...
Montana	2	1	1				
Nebraska	6	6	...	Totals	433	391	42

The new Reapportionment Law further provides that in the event that both the Territories of Arizona and New Mexico shall become States before apportionment is made under the next census (that of 1920) they shall each have one representative, and if either become a State before such apportionment it shall have one representative, which representative or representatives shall be in addition to the number 433. Under the new reapportionment there is no reduction of the membership from any State. Twenty-one States retain their present representation. Twenty-five States gain representatives. Below is given the membership and ratio under the different apportionments:

Apportionment.	Ratio.	Representatives.	Apportionment.	Ratio.	Representatives.
Constitution, 1789	30,000	65	Seventh Census, 1855	93,423	233
First Census, 1793	33,000	105	Eighth Census, 1863	127,381	243
Second Census, 1803	33,000	141	Ninth Census, 1873	131,425	293
Third Census, 1813	35,000	181	Tenth Census, 1883	151,911	325
Fourth Census, 1823	40,000	213	Eleventh Census, 1893	173,901	356
Fifth Census, 1835	47,700	240	Twelfth Census, 1901	194,182	386
Sixth Census, 1843	70,680	223	Thirteenth Census, 1911	211,877	433

The average Congressional district under the new reapportionment will contain over 17,000 greater population than did the average district under the apportionment made on the twelfth census. The ratio is now 211,877 population for each representative.

MANUFACTURES OF SOME VIRGINIA CITIES.

The value of manufactures produced in Richmond in 1909 was \$47,358,000; Lynchburg, \$10,188,000; Norfolk, \$10,341,000; Portsmouth, \$1,528,000; Petersburg, \$3,896,000; Danville, \$5,389,000; Alexandria, \$4,420,000; Roanoke, \$7,261,000.

PORTLAND-CEMENT CONCRETE.

Under heavy buildings use 2 parts of cement, 5 parts of sand and 9 parts of broken stone. The proportions 1:2:3 are good, that is 1 barrel cement, 9 cubic feet of sand and 20¾ cubic feet of stone, making 21.5 cubic feet of concrete.

To mix, spread the sand on a tight floor and put the cement on the sand.

Mix with hoe thoroughly. Dump the stone on top. Work over dry with shovels. Keep working while water is added with a sprinkler on end of hose. Work over twice after water is added, using only so much water as will enable the mortar to coat the stone completely and flush to the surface when tamped. Best have the water at about 65° Fahrenheit.

*Hoke Smith resigned as Governor of Georgia to take effect in November in order that he might take his seat in United States Senate. President of State Senate acting Governor until election of successor at special election, there being no Lieutenant-Governor in Georgia.

†Arizona will continue with Territorial Governor until admitted as State.

‡So will New Mexico, which has elected W. C. McDonald, Democrat, Governor to take office when State is admitted.

BALTIMORE'S STREET CAR SYSTEM.

The system has 401.16 miles of single track, of which 171.14 miles are laid with tee rail, mainly suburban lines; 2 miles with duplex rail; 180.61 miles with 9-inch girder rail; 47.4 with smaller girder sections. There are 215 transfer points with 1,843 direction privileges; 60,789.807 transfers were used during the year 1910, about 40 per cent. of the revenue passengers having availed of this privilege, and the average rate per capita was 3.4 per cent., or 3.16 cents, after deducting park tax.

†Baltimore county has no incorporated towns and no town tax rates, the affairs of its whole area being administered by a Board of Commissioners. As there are no mayors, the names of prominent citizens of the several places are given. The Census of 1910 takes account only of the districts, not of the towns.

SHELL FISH COMMISSION.

The Board of Shell Fish Commissioners of Maryland consists of Walter J. Mitchell, La Plata, chairman; Caswell Grave, Johns Hopkins University, secretary, and Benjamin K. Green, Westover, treasurer.

The duties of this Board are to survey the oyster grounds of the State, reserve the natural oyster bars to the Public Fishery and to endeavor to lease the bottoms outside the natural oyster bars to residents of the State for oyster culture.

The field work of the survey of the oyster grounds was begun June 29, 1906, and was completed November 28, 1910. The complete results of the survey will be ready for publication not later than February 1, 1912.

The barren bottoms in Anne Arundel, Somerset, Wicomico, Worcester, St. Mary's and Baltimore counties have been opened for leasing and those of other tidewater counties will be opened in the order in which the counties were surveyed.

The oyster resources of the State, potential and latent, as ascertained and

developed by the Commission, consist in:

1. About 210,000 acres of natural oyster bar.
2. About 2,500 acres of leased bottom.
3. About 800,000 acres of barren bottom.

Detailed accounts of the entire operations of the Commission are published in reports which may be secured at the office at 312 Marine Bank Building, Baltimore.

The Haman Oyster Culture law is a perfect instrument for making the survey of the natural oyster beds, but its provisions for oyster cultural operations are inadequate. The Commission will recommend to the next General Assembly the changes and additions which are considered necessary to perfect the law.

YEAR'S TAX RECEIPTS.

During 1911 the Baltimore Tax Department took in \$8,722,695.26 from all rates of taxation. Revenue from street assessments was \$59,210.90. For the rate \$1,039,646.35 was collected.

BALTIMORE SHIPBUILDING.

During 1911 49 vessels were launched from Baltimore shipyards aggregating 24,102 tons and valued at approximately \$1,887,294. They ranged from the steel collier Neptune, of 10,774 gross tons, built by the Maryland Steel Company for the United States Navy, and the largest vessel ever sent overboard from a shipyard on the Patapsco, to beautiful yachts and the wooden lighters used so extensively in harbor traffic. Vessels launched by the several yards:

Maryland Steel Company—United States naval collier Neptune, suction dredges Captain Huston and Nelson Z. Graves, for the Ellicott Machine Company; self-propelled oil barges No. 2 and No. 3 and coal barges Nos. 255, 256, 257 and 258, all for the United States Navy Department; combination towing, freight and passenger steamer Frank Tenney, for the Spanish-American Iron Company for use in Cuban waters.

Spedden Shipbuilding Company—The 151-foot steel fishing steamer Waldo Newcomer, for the Edwards Company, of Reedsville, Va.; 130-foot, covered steel lighter Argo, for the Independent Pier Company, of Philadelphia.

Skinner Shipbuilding and Drydock Company—One 120-foot car float for the Atlantic Transport Company; one open 90-foot and two covered 86-foot lighters for the Chesapeake Lighterage and Towing Company; a 125-foot covered lighter for the Seaboard Air Line Railway, Norfolk; 80-foot dredge for United States engineers at Washington; 40-foot electrically fitted pontoon for Baltimore and Ohio Railroad, at Philadelphia.

The Skinner drydock during the year broke all previous records in that it received the largest ship ever placed in drydock in this city, the giant collier Neptune, built at Sparrows Point. But even with the 542-feet of total length of this ship on the sills, there was still room in the large dock for a larger vessel.

Charles L. Rohde Sons Company—One 100-foot, two 92-foot and one 85-foot open lighters, for M. W. Adams; 95-foot sand dredge, for Arundell Sand and

Gravel Company; 90-foot derrick machine and 107-foot open lighters for the Joseph R. Foard Company; 80-foot covered lighter for Atlantic Transport Company; 115-foot suction dredge, for the Ellicott Machine Company; two 80-foot open lighters for the Potomac Sand Company, Washington, D. C.

William E. Woodall & Co.—One 70-foot covered lighter, for Baltimore, Chesapeake and Atlantic Railway Company; two covered 80-foot lighters for a local order.

Chesapeake Marine Railway Company—Two covered 80-foot lighters for a Norfolk order; one 92-foot covered lighter, for the Atlantic Transport Company.

Oliver Reeder & Son—One covered 92-foot lighter, for Royster Guano Company; one 42-foot covered lighter for the Sigmund Menzel Electric Welding Company, of Washington, D. C.

Sanford & Brooks Contracting Company—Clam dredge Defender II.

Maryland Dredging and Contracting Company—One concrete lighter and one wooden coal and water lighter.

The Nilson Yachtbuilding Company made a record in turning out several of the finest power yachts in its history. They were the Nemeha, of 90 tons for Houston White, of New York; Tuna, 90 tons, for John English, of Jacksonville Fla.; North Wind, 110 tons, for Charles Martin Clark, of New York; Edit Davison, for the Davison Chemical Company, and the Lloyd, for A. Schumacher & Co., representatives of the North German Lloyd Steamship Company, at the port.

PROGRESS OF SEWER CONSTRUCTION.

Total length of sewers, drains and connections completed to December 31, 1911, about 181 miles; total number of manholes built, 3,804; total number of inlets installed, 1,182; total length of sewers and drains contracted for to December 31, 1911, about 200 miles. The Sewage Pumping Station building has been completed, and the installation of the pumps and other machinery is nearly completed.

At the Disposal Plant on Back River a sufficient number of hydrolytic tanks and sprinkling filters have been com-

pleted to take care of the sewage from about 275,000 people, and the making of connections to the sanitary sewers in the High Level District began on October 27, 1911. The making of house connections will be continued as rapidly as possible in the High Level District, and will be commenced in the Low Level District as soon as the Pumping Station is ready for use.

To December 31, 1911, the work completed and placed under contract was approximately \$10,500,000.

MANUFACTURE OF DISTILLED AND MALT LIQUORS.

A Census report shows in 1909 a capital invested of \$72,450,000; materials, \$35,977,000; salaries and wages, \$5,062,000; miscellaneous expenses, \$154,293,000; value of products, \$204,699,000. There were large increases over 1904 in every item except the number of establishments, in which the decline was 24 per cent. The value of product increased 56 per cent.

In the production of malt liquors there was \$671,158,000 of capital invested; materials, \$96,596,000; salaries and wages, \$64,000,000; miscellaneous items, \$139,357,000; value of products, \$374,730,000. In every item except number of establishments there was in the last decade large increase, product increasing by 26 per cent.

SYDNEY MUDD.

On October 21, at the age of 53, died Sydney Mudd, of La Plata, Charles county, the Republican boss of the Black Belt of Southern Maryland. His malady was paralysis, following nervous breakdown. Mr. Mudd was in youth a Democrat, being a nephew of the Dr. Mudd who unwittingly gave surgical service to John Wilkes Booth and was punished by long incarceration in the Dry Tortugas. He began his political career when 21 and made politics his

profession. Intelligent, strong, resourceful, he became absolute boss, not cajoling the negro voter, nor fraternizing with him, but dictating with rigid firmness. He dared much and won. Becoming a force in his party, he was Speaker of the House at Annapolis in 1895 and in 1898 was elected to Congress, where he efficiently looked after the State's economic interests through many terms, retiring in 1910 by reason only of loss of health.

BALTIMORE'S PASTEUR INSTITUTE.

The Pasteur Institute of Baltimore City (College of Physicians and Surgeons), has completed, under the direction of Dr. N. G. Keirle, the treatment of 1,631 cases for the prevention of hydrophobia. Of the 1,631 cases treated only three are reported to have died of hydrophobia. The rate of mortality was one-fifth of 1 per cent. Without the Pasteur treatment, the mortality from bites of rabid animals is from 5 to 80 per cent., depending upon the situation and severity of the wounds.

It was ascertained that 880 of the 1,631 persons treated were bitten by animals that were rabid. The wounds were inflicted by dogs in 1,438 cases, in 105 cases by cats, in 3 by a calf, in 1 by a pet pig, in 12 by cows, in 16 by horses, in 1 by guinea pig, and in 4 by human beings. In 58 cases the wounds were not the result of bites.

Of the 1,631 persons treated 1,073 were males and 458 females. Three hundred and nine under 10 years old were treated, being 18 per cent. of all patients received. The youngest treated was 7 months old; the oldest, 82 years

The 1,631 persons treated came from.

The Harvard varsity four won in 13.37 $\frac{1}{2}$; the Yale four did the distance in 13.52.

BALTIMORE ROWING CLUBS' RECORD.

The season of 1911 was a successful one.

The first important victory was at the meeting of the Middle States Regatta Association, New York, May 20, when the Baltimore oarsmen captured the Presidency of the Association, R. E. L. Williamson being elected to that office. The Regatta for the coming year was secured for Baltimore.

May 27—The Arundels won the first four-oared shell race at the Regatta of the American Rowing Association, held in Philadelphia.

July 4—Ariels won the Junior four-oared gig race at the Regatta held in Philadelphia.

July 17—The Ariels won the Championship of the Patapsco River by defeating the Arundels in three out of five events. One was called off by reason of a launch running down the Ariel's boat and the other was awarded to the Arundels. The races won by the Ariels were the four-oar shell race,

four-oar gig race, and eight-oar shell race. The single shell race was awarded to the Arundels.

July 28—The Ariels rowed second to the Detroit Boat Club's four in the intermediate four-oar shell race in the National Regatta at Saratoga, N. Y.

July 29—The Arundels won the intermediate four-oar championship race in the National Regatta at Saratoga.

September 4—The Regatta of the Middle States Rowing Association, held at Spring Gardens, Patapsco River, was the most successful ever held by that organization. Of the fifteen events, the Baltimore oarsmen won five first and five seconds. The Ariels won the intermediate four-oar gig race, and the intermediate eight-oar shell race and were second in four other events. The Arundels won the Senior four-oar shell race, junior four-oar gig race, and association single shell race, and rowed second in the junior singles.

AVIATION.

On June 30, on the Patapsco, in his biplane Lord Baltimore, Clyde E. Loese flew at a speed of 50 miles an hour from Yockel's Park to the Lazaretto Light-house, making six ascents and alighting on the water.

On June 30, Hirth, with a passenger, completed in 5 hours and 41 minutes (flying time) the distance between Munich and Berlin, winning \$12,000. He stopped over night at Nuremberg and stopped again at Leipzig.

On April 12, Pierre Prier flew, without stop, from London to Paris (290 miles) in 3 hours, 8 minutes, rate 60 miles per hour. The late J. B. Moisant, American, flew from London to London with a passenger in 21 days (bad weather) in 1910. These les Moulinaux to Congouleme, M. Vedrine made cross-country record. On May 26 he won in a triad race of 761 miles, with prizes aggregating \$10,000.

Lieutenant Fequant flew to Rheims in 10 days, all records.

won the British amateur championship behind Harry Vardon and British championship.

PIMLICO RECORDS, 1911.

The new records made at Pimlico during 1911 were all made at the spring meeting. The track was not fast during the fall meeting, owing to the frequent and heavy rains, but proved safe, there being no accidents on the track, even in the worst going, which condition was accounted for by the great quantity of sand put on as a top dressing during the year previous.

The following new records were made or equalled during the spring meeting of 1911 at Pimlico:

Four Furlongs—Molsant, 107 pounds, April 29, 1911, time, 48%. Equals record held by Little King, 110.

Four and One-half Furlongs—Fumeur, 110 pounds, May 6, 1911, time, 54%.

Six Furlongs—King James, 124 lbs., May 11, 1911, time, 1.12.

Seven Furlongs—Zeus, 109 pounds, May 3, 1911, time, 1.26.

One Mile—Everett, 110 pounds, May 5, 1911, time, 1.39. Equals record held by Hampton Court, 112.

One Mile and Sixty Yards—Water-vale, 98 pounds, May 9, 1911, time, 1.42%. World's record.

One Mile and Five-eighths—Zeus, 120 pounds, October 14, 1911, time, 2.46%. First race at this distance: track good, but not fast.

The most remarkable performance the public saw at Pimlico in 1911 was the race run by Zeus in the Bowie at two miles on October 23, the closing day of

the fall meeting. Carrying 126 pounds, the good three-year-old ran the distance over a slow and muddy track in 3.32, being eased up the last sixteenth of a mile. It is fair to say Zeus showed himself that day to be a better three-year-old than Fitzherbert, Dalmation or, in fact, any three-year-old one can recall for many a day. The following new records were established in 1911 throughout the country:

Three and a Half Furlongs—Calisse II, 123 pounds, Juarez, Mexico, January 17, 1911, time, .39%.

Four Furlongs—Amon II, 115 pounds, Juarez, Mexico, February 9, 1911, time, .46%.

Six Furlongs—Priscillian, 113 pounds, Hamilton, Ont., June 19, 1911, time, 1.11.

One Mile and Twenty Yards—Col. Ashmeade, 103 pounds, Louisville, October 5, 1911, time, 1.39%.

One Mile and Sixty Yards—Water-vale, 98 pounds, Pimlico, May 9, 1911, time, 1.42%. World's record.

One Mile and Seventy Yards—Princess Callaway, 99½ pounds, Latonia, Ky., October 27, 1911, time, 1.42.

One Mile and One-sixteenth—Trap Rock, 112 pounds, Fort Erie, Ont., July 5, 1911, time, 1.43%.

One Mile and Three-sixteenths—Olam-bala, 120 pounds, Fort Erie, Ont., August 2, 1911, time, 1.57%.

Four Miles—Messenger Boy, 106 lbs., Louisville, October 7, 1911, time, 7.14%.

TEN MILE FOOT RACE.

On January 1, in rain and mud, H. C. Elphinstone, C. C. C., ran 10 miles, from Battle Monument to Electric Park (including 4 miles on the Park track),

in 1h. 17m. and 47½s.; D. Miller, second; T. George, third. Seventy-one entered, 57 started, 41 finished. The winner's last mile was in 8m. 27½s.

Personnel.

The authorized enlisted personnel of the Navy is 47,500 men; the actual strength on June 30, 1911, was 47,500. The number of authorized commissioned line officers is: 1 admiral, 18 rear admirals, 70 captains, 112 commanders, 200 lieutenant-commanders, 350 lieutenants and as many lieutenants of the junior grade and ensigns as can qualify from the graduates of the Naval Academy.

MOROCCO WAR SCARE.

Under the treaty of Alguiciras Germany was thought to have checked French and Spanish designs on Morocco. The police power thus given France and Spain was used, however, by these countries to occupy one-third of Morocco. France sent an army to occupy Fez and guide the sovereign in the exercise of his functions. Thereupon Germany sent a warship to Agadir, it was supposed, to signify that Germany must have a share of Morocco,

or France must retire. France was obstinate. The sabre was rattled at Berlin and for a time war seemed imminent, until the British Cabinet intimated plainly that England objected to Germany's course. Then negotiations began, with the result that Germany conceded to France a protectorate over Morocco in exchange for a large area of the French Congo, extending from the Congo River nearly to Lake Tchad.

RELATIVE SEA STRENGTH.

1 Battleships having a main battery of all big guns (11 inches or more in caliber).

2 Battleships, first class, are those of (about) 10,000 tons or more displacement.

3 Armored cruisers having guns of largest caliber in main battery and capable of taking their places in line of battle with the battleships. They have an increase of speed at the expense of carrying fewer guns in main battery, and a decrease in armor protection. Also called battleship cruisers.

4 Includes all unarmored cruising vessels above 1,000 tons displacement.

5 Includes smaller battleships and monitors. No more vessels of this class are being proposed or built by the great powers.

6 England has no continuing shipbuilding policy, but usually lays down each year five armored ships, with a proportional number of smaller vessels.

7 Germany has a continuing shipbuilding programme, governed by a fleet law authorized by the Reichstag. For 1912 there are authorized 1 battleship, 1 armored cruiser, 2 cruisers, 12 destroyers. Eventual strength to consist of 38 battleships, 20 armored cruisers, 38 cruisers, 144 destroyers.

8 \$78,837,591 authorized to be expended from 1911 to 1917 for construction of war vessels.

* Includes vessels of colonies.

** \$3,570,000 authorized for experiments and further construction.

NOTE.—Vessels undergoing trials are considered as completed.

The following vessels are not included in the tables:

Those over twenty years old, unless they have been reconstructed and rearmed since 1905.

Transports, colliers, repair ships, converted merchant vessels, or any other auxiliaries.

Vessels less than 1,000 tons, except torpedo craft. Torpedo craft of less than 50 tons.

Table II includes vessels authorized, but not yet laid down, as well as those actually under construction.

BALTIMORE'S SEWERS BEGIN TO BE USED.

The first connection with the new sanitary sewers, outside of the Walbrook section of the city, which has been connected with an experimental disposal plant for two or three years, was made October 27, 1911. The first house to be connected was 1801 Jefferson street, East Baltimore. Sewage began on the 27th to flow through the outfall mains, having seven miles to go to Back River. Sewage treatment will not begin till considerable sewage accumulates. Sewers were ready for use from Guilford avenue to the Eastern city limits and between Chase and the Northern city limits. The area served widened before the end of the year.

THE SUN'S RISING AND SETTING.

In the case of the sun and moon it is the rising and setting of the upper limb, and not of the centre, which is given in almanacs. When the upper limb of the sun is apparently on the horizon it is really 34' below it, being elevated by refraction. The centre is 16' below the limb, or 50' below the sensible horizon. We find first the *apparent* times of the rising and setting of the sun, for example, on June 1, 1911,

respectively, 4h. 38m. and 7h. 22m.; subtracting from this the equation of time and adding for the reduction to Eastern standard time, we find 4h. 42m. and 7h. 26m. For June 30, 1911, we found the apparent time of the sun's rising and setting to be 4h. 33m. and 7h. 27m. Correcting for equation of time and the Eastern standard time, we get 4h. 43m. and 7h. 37m.

BALTIMORE'S LEAD IN ELECTRIC TRACTION.

The first electric railway operated in America was run in Baltimore August 10, 1885, between that city and Hampden, a village two miles distant, at a speed of 12 miles an hour, with passengers. A Daft motor was used. Three days later, the "Morse" and "Faraday" were performing regular service, making the round trip in 25 minutes. An ordinary car was attached to the motor car. There was a protected third rail between the tracks. At street crossings the current was carried overhead. This line was operated with electricity several years. The first American elevated electric railway was the Lake Roland line to the City Hall, which was in operation after May 5, 1893.

May 23, 1890, the North Avenue Electric Railway began running; May 28, 1892, the Baltimore and Curtis Bay Electric Railway; July 25, 1892, the

Pikesville Electric Line; September 17, 1892, the Central Passenger Electric Line; April 23, 1893, the Lake Roland Elevated Electric Line from North avenue; April 26, 1893, the York Road Electric Line; May 6, 1893, Lake Roland Elevated Electric Line to City Hall, with Walbrook division; May 15, 1893, Carey Street Electric Line; May 22, 1893, North Avenue Electric Line, City and Suburban; July 23, 1893, South Baltimore part Carey Street Electric Line; July 30, 1893, Wilkens Avenue Electric Line, City and Suburban; August 6, 1893, Highlandtown Electric Line of City and Suburban; September 3, 1893, Maryland Avenue Electric Line of City and Suburban; September 20, 1893, Linden Avenue Electric Line; October 4, 1893, John Street Electric Line of City and Suburban.

CUSTOMS SERVICE, BALTIMORE, 1911.

Collector of the Port William F. Stone's report shows the total collections for 1911 of the customs service were \$4,265,025.49, or a decrease of \$696,534.49 from 1910. There was a decrease of \$10,376.80 from the gross cost of collections for the same period, while the number of employees was decreased only one.

Thirty-eight new vessels were built and documented at this port in the year 1911—5 sail, 22 steam, 8 barges and dredges and 3 yachts—having an aggregate tonnage of 25,471 tons and valued at \$2,945,850.

The total number of vessels now owned and documented in this district was 1,005, having an aggregate tonnage of 239,044 tons.

BALTIMORE'S RIGHTFUL POPULATION.

Had the 14,612 Baltimore people missed by the Federal census-takers in 1910 been counted, or had the suburban towns in the immediate vicinity of Baltimore been annexed to Baltimore, the city would have been credited with more than 558,485 and would have outranked Cleveland.*

The towns near Baltimore have populations estimated as follows:

Sudbrook	1,000	Mt. Washington.....	2,000
Pikesville	2,000	Roland Park	3,000
West Arlington.....	5,000	Towson	4,000

Consolidation Coal Co.

INCORPORATED

**GEORGES CREEK BIG
VEIN CUMBERLAND COAL**Mined in
the Georges Creek
Region, Maryland.

The premier steam coal of America. Leads the world for general smithing purposes. From Maine to California Consolidation stands for perfection. This company has on its books to-day the names of customers who have been buying its coal for 40 years. It reduces the cost of manufacture by its maximum heat-producing power, its low sulphur and ash. The Consolidation Coal Co's transportation facilities are unsurpassed, so that its coal is readily obtained at all points.

FAIRMONT COALMined in Fairmont
Region, W. Va.

This coal is prepared in seven sizes, ranging from 1½-inch screened to slack, and is unexcelled for the making of illuminating and producing gas; heavy steam purposes; and the burning of Portland cement. An excellent domestic fuel. It is without a peer for use in by-product ovens on account of its large yield of by-products.

Fairmont coke has met with unusual success in foundry, furnace and general smelting works. It is hard, bright and strong.

SOMERSET COALMined in Somerset
Region, Pa.

This coal is especially adapted for steam use where smoke is objectionable or heavy firing is required, also for puddling and heating furnace work. A very satisfactory fuel for use in lime burning, pottery and brick works. It is particularly adapted for blacksmithing purposes, especially in light forging.

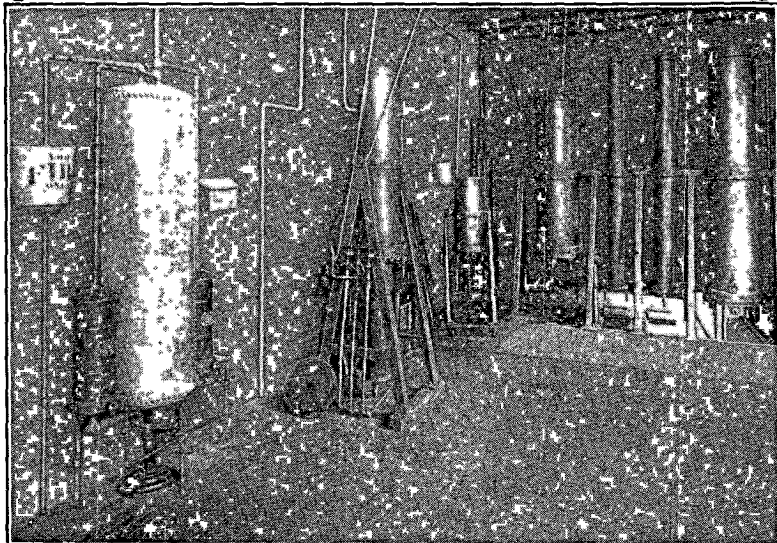

Somerset coke is a standard fuel for making the better grades of iron, being low in sulphur and of remarkably dense physical structure.

**MILLERS CREEK
BLOCK COAL**Mined on
Millers Creek, Big Sandy
River, Kentucky.

A bituminous coal, low in ash, of particular hardness, and adapted to winter storage without disintegration. Will deliver in sizes with less fine than any other coal. Used for domestic, producer gas and general steam purposes. Prepared in all sizes.

BEER

Rich in Flavor— and Pure

Brewed from the finest of Bohemian Hops, imported especially for our use, Wiessner's Beer has a rich, satisfying taste that pleases every man and woman who likes good beer—a taste that rivals the most expensive foreign beers. More important even than the flavor, however, is the fact that

WIESSNER'S PILSNER STYLE PALE BEER

is absolutely pure. Its purity commends it to the careful as a beverage for home drinking. To this more than anything else is due its great popularity for family use. ¶ It is excellent as a tonic for the weak, run-down man or woman. Physicians recommend it as a strength builder for convalescents.

The Value of Complaints in Public Service

It is the earnest purpose of this Company to provide for Baltimore a gas and electric service that is unexcelled. The question of service—adequate, efficient, dependable service—is uppermost in the mind of its organization.

The policy of this Company is founded on close co-operation with its customers. It wants to be informed of their needs and desires. For this reason it has an active and alert COMPLAINT DEPARTMENT. It invites criticism of its service.

It is the desire of this Company that its customers use gas and electricity in the most economical and practical way.

By informing us of conditions that render the service defective, YOUR COMPLAINT will serve the purpose of giving us an opportunity to remove the cause of the complaint; and, by improving the service, increase its value to you.

THE EMERSON

Every room in The Emerson is an outside room; light and airy, with one or more windows.

In Baltimore's latest, best-equipped and most attractive hotel the rates are:

Rooms with running water . . . \$1.50 a day and up.

Rooms with running water and toilet \$2.00 a day and up.

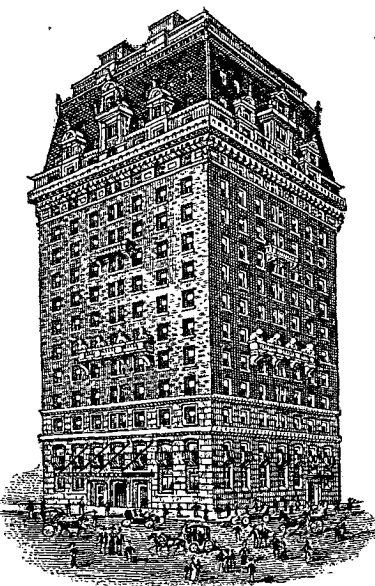

Room and bath complete . . . \$2.50 a day and up.

Circulating, filtered ice water in every room.

And all of them embody that good taste, that atmosphere of refinement which exacting people demand.

In other words, The Emerson is the one institution which offers to the visitor in Baltimore, to the resident of the city who asks for transient accommodations, the most generous treatment at moderate prices.

Assuredly, no matter what your tastes may be, there is a certainty of service at The Emerson that must please.

For every convenience known to the modern hotel is here.

This is why you can make no mistake in entertaining your friends with a dinner party at The Emerson. Three exquisite dining rooms—competent, courteous attention. Real, home-like, Maryland cooking.

THE

SUN

The Paper of the People—By the People—For the People.

MORNING — EVENING — SUNDAY

THE SUN is the Cheapest and Best High-Class Newspaper in the United States. It is Careful and Accurate in its Statements and Fearless in its Policy.

A LETTER FROM HOME

To Baltimoreans residing elsewhere and to residents who have friends anywhere in Maryland and the South, THE SUN is indispensable. The social and business movements of acquaintances are of importance to all its readers and THE SUN is looked upon and welcomed as a daily LETTER FROM HOME.

MARKET REPORTS AND FINANCIAL NEWS

Financial information and market reports in THE SUN are first—complete; second—accurate; third—coldly stated with no end of a market to be bolstered up and no special interests to subserve.

THE WOMAN'S PAPER

For woman and the family THE SUN has no superior. It is morally and intellectually of the very highest type. It publishes the best features that can be written on fashion, art and all miscellaneous matters that women and men of the right line of thought can demand.

THE SUNDAY SUN

is a refreshing newspaper—larger in number of pages than the daily. It is a straight through-and-through news-paper, with colored comic, magazine and sporting sections.

THE WORLD'S NEWS

THE SUN's bureaus at Washington and New York are great news centers. These and its correspondents in all parts of the United States and in every quarter of the globe give THE SUN as nearly perfect a news-gathering organization as it is possible to attain.

EDITORIAL

THE SUN, editorially, is always timely, always thoughtful, fair and just. It may not always write just what its readers wish it to present, but what it does write is always free of fear or favor from any human source outside of its own office.

SPORTING

THE SUN publishes the best sporting page in Baltimore. It aims to be a paper of record. It covers the field of professional and amateur sport better than any other paper in the land.

THE EVENING SUN

is an evening edition of the morning paper, printed in larger body type, and maintaining in every respect THE SUN's reputation for reliability. It has already won a permanent affection in the hearts of its readers.

By Mail, THE SUN (Morning or Evening), 25 cents a month or \$3.00 a year.
